Insurance means

PEACE OF MIND

For Trade and Industry: Few people today would be able to risk the hundreds of millions of dollars needed for factories and equipment if insurance were not available to protect their investment.

Few would dare to take the risks of transporting their product to market without insurance. Few merchants and dealers could take the chance of stocking merchandise if

there were no recourse against overwhelming disaster.

Back of practically all our trade and commerce is the Peace of Mind which comes from insurance. Last year, the companies writing fire, automobile and casualty insurance paid out more than 500 Million Dollars in claims across Canada—real evidence that insurance indeed means Peace of Mind.
