Editorial

A Crowning Achievement

For eleven young people, six girls and five boys, Friday evening, Nov. 10th marks a very important occasion in their scholastic careers. They will receive their much-coveted diplomas as graduates of the Stouffville District High School. We feel that for these young men and young ladies, it is a crowning achievement, one that deserves recognition and praise.

Too often, we have felt that this accomplishment is passed off too ·lightly as just another parade of student personnel — a stage performance played to the tune of hesitant applause.

The audience is human and it is perhaps understandable that the earlier presentations of lower and middle school diplomas in addition to a host of academic and athletic awards would tend to wear the enthusiasm a little thin. In spite of this, we con-

tend that the honour graduates are honoured guests and the full spotlight of attention should be focussed on this minority group. This is the gallant remains of the throng that entered the school five long years before. These are the sole survivors that have withstood the ravages of time and tide to reach their respective goals. In this day and age when so much stress is placed on the need for higher education among our young folk, it is only proper that such accomplishments should be fittingly recognized.

Too often, we feel, that these honour graduates become lost in the shuffle. Their scroll of parchment is similar to the ninety-eight others gone before and yet it is different, much different. These successful students represent the success of the school and its staff. Let's roll out the red carpet.

start.

After a rather lengthy absence, have been formulated in Alliston, from the ranks of O.H.A. competition, Stouffville may make a determined come-back this season. The success of this venture will depend mainly on two factors — (1) The enthusiasm of the players. (2) The enthusiasm of the fans.

Promoters have set their sights on a Junior "D" entry and such a team could be a stepping stone to greater things in organized hockey circles. The club will boast no "ringers" and will be comprised strictly of "home-brew" talent. Similar plans

A "Punk" Trademark

A district weekly newspaper carried a true story recently concerning the lady motorist who, much to her disgust, ran out of gas while driving along a busy highway outside of town. Much to her surprise, a teenage youth, dressed in a black leather jacket, stopped to offer his assistance. On learning the trouble, the young lad jumped back in his truck and headed for the nearest service station. In a matter of minutes he returned with a can of gasoline. The

lady was able to start her car and her helper drove away without leaving his name.

She proceeded to the station to return the container and was informed by the attendant that the youth had already paid for the purchase. This act no doubt left a lasting impression on the motorist as it did on this writer. Perhaps the lad was a gentleman in disguise or is that black leather jacket a punk trademark rather than the trademark of a "punk"?

are left alone.

offered for sale on Stouffville streets this Saturday. You can show some small measure of compassion and gratitude by buying one of these badges or remembrance.

Always Striving To Be Better

What has been established as National Newspaper Week is just concluded. You who have been subscribers for many years - have you noticed the difference in your hometown press? We'd like to tell you that we are striving to make a better community newspaper - to make a newspaper that keeps pace with the community, and that may be worth more to the community.

Certainly, we must make a profit on our product. That is the Canadian way. We must make a profit to replace worn-out machinery, to buy new machinery and to print a better newspaper. We must also make a decent wage and pay our employees a decent wage. That is also our way.

Our main job is presenting the

news. That is why you pay your subscription or buy it on the newsstand. You pay to get the news, and your newspaper is interested in giving you all the news. It is our right to inform. and with this right goes the responsibility to inform.

Your newspaper also stands sentinel to guard our way of life. That too, is our responsibility. We believe in self-government - that in the hands of the people, our way of life is safe. We believe that no regimented society can replace that which we enjoy.

We invite you to examine your community newspaper. We invite criticism, for we know that through criticism, your newspaper may be better able to meet the challenge to greater improvement.

"Let me take you away from all this!"

By the time this appears in print, the battle over the observance of Remembrance Day, Nov. 11, will be over, in most centres. It's an annual fracas which generates a good deal of heat, and, on occasion, some bit-

On one side is the Legion, one of whose aims is to keep alive the memory that a goodly number of fathers and sons, uncles and brothers, had their lives torn from them, prematurely and painfully, in the two world wars that have disgraced the twentieth century. The Legion urges that the day be declared a full holiday in every community and that it be fittingly observed.

any more, but merely a holiday. They wonder aloud why they should pay wages to a fellow who will simply take the opportunity to go hunting or sit in the pub all day.

And right in the middle is the Canadian Government. In deference to the big pressure from the Legion, the government closes its own offices on Nov. 11. But in deference to the even bigger potential howl from industry, the Government does not declare the day a national holiday, and makes little attempt to encourage it as such.

What about that ublquitous less.

For Parents By NANCY CLEAVER

CHILDREN ARE SO DIFFERENT

"Children are so different!" mother complained.

"I never know what to ex-

"That's what makes home life exciting!" her friend answered. If parents would accept at the

time of a baby's birth the fact that all children differ, how much happier life would be! How much unnecessary sorrow arises from parents, especially mothers, wanting their child to be taller, or heavier, or brighter, or more friendly to others, than he is naturally! There is no one pattern for all children.

In every home with several children, parents often notice how different they are. It is im-For appointment call Stouff. 465 portant to remember that children have "feelings" which can be hurt. They are sensitive when they hear disparaging remarks about themselves, such as, "Tom is not nearly so clever at school as John," or "Jean is such a careless, untidy child-quite different from Mary who is neat as a pin about her clothes and playthings," or "Billy is just naturally at home with strangers. He'll make up with anyone But Helen is painfully shy. She runs and hides when I have visi-

Put yourself in Tom's or Jean's or Helen's place-How would you like to know your mother

Another mistake busy parents sometimes make is in failing to look for some one thing each child does well. He needs sufficient encouragement and praise so that he feels he is a success. Every person craves, not only the good opinion of others, but he also needs to think well of himself.. "I'm not much good at anything," a teenage girl remarked to a friend. That girl's mother should have helped her to find out what she was good at," so that she would not have such a poor estimation of her own ability.

In some homes a child may be good at something and be praised for his skill, and because praise is pleasant, he wants that job always to be reserved for him. But unless there is a system of taking turns in work as well as in other things, the other children in the family get no practice at this particular thing. Dorothy may be a marvel at making ple but her younger sister Linda needs to try her hand at this, too!

Boys and girls are made on a different plan. Serious harm to a child's normal sex development in later years may often be traced to a mother's disappointment in the arrival of a son when she wanted a'daughter (er visa versa), resulting in her treating her boy like a little girl, overdressing him, keeping his hair long and "protecting" him from "those rough other is rather slow at a guesslittle boys in the neighborhood," ing game and a bit awkward in A girl who is over-encouraged a motion demanding skill. In to be a "tom-boy" may also dis. the physical, emotional and
