Give Your Evergreens Winter Protection

Evergreens need winter protection, just like many other less-hardy plantings.

Look out for drying winter winds as one of the main causes of winter injury. When there is little snow cover and the ground is frozen, the roots can't take up the water they lose. Areas where the ground has been blown clear of snow are subject to injury.

Bright, sunny weather often leads to winter injury. The protective snow cover will melt rapidly and the ground will dry out or freeze hard at night.

Sometimes small branches on white cedars suddenly turn brown and die in the spring. This can be caused by small breaks in the twigs, followed by drying out. These breaks may be the result of persons forcing their way through a hedge. Sleet storms may also cause small breaks.

Ontario Dept. of Agriculture specialists offer these suggestions:

Soak the soil around plantings just before freeze-up. This will help prevent drying out of the foliage.

Mulch with peat moss or straw manure. This is valuable in areas where there is little snow to act as an insulator.

Use snow-fencing for protection against wind and sun. Evergreen branches and discarded Christmas trees may also be used. Large trees may need a frame support and burlap for protection. Be sure to erect the framework before the ground freezes.

It's funny how often we're afraid a barber is going to make our hair look like his.

Mr. and Mrs. LeRoy Soper and family, of Stouffville were Sunday guests of Mr. and Mrs. Douglas Ashton.

CEDAR GROVE NEWS

The long list of activities that come to life each autumn includes every age group and every interest. Most of our young people participate in one of the many church groups. There are choirs, school, community club meetings and music lessons, and the list goes on and on. Everyone is very busy as soon as 'the season' gets underway in Cedar Grove.

The Young People's banquet on Friday evening drew a good crowd for a delicious pork supper served by the CGIT. The speaker gave an interesting address illustrated with slides.

Mr. Edwin Schneller, who has been working for Gib Whittamore the past few months, suffered a heart attack while driving the tractor last Thursday. Mr. Schneller died at once but the tractor turned in the field, crossed the road, missed a post and entered another field before finally stalling in plowed land. Fortunately, nothing was coming along the townline at the time. Mr. Schneller lived on the Altona Road and leaves his wife, three daughters and two sons. He was in his 72nd year.

Saturday, in spite of predictions, was a perfect day for the board replacing bee at the rink. The ladies in the community took dinner to the men on the job and, although a lot was accomplished, it will take another day to finish the job. There is no limit to the number of men and boys the work committee can use, so all hands are welcome.

Zion WMS was held at the home of Mrs. Vera Taylor on Nov. 1st at 2 o'clock. The meeting opened with prayer by the President. Sewing meetings for the bales will be held at Mrs. Ryan's on Nov. 21 and every third Tuesday with the exception of December. The bales will be sent to the Victor Mission and overseas. Mrs. Isobel Whittaker gave a paper, "Are We Burying our Old People Alive?" Old age is something the majority of us will have to face as retirement is earlier and life expectancy is longer.

The third chapter of the study book entitled "Is Family Life About to Crumble?" was taken by Mrs. Jean Beare, assisted by Mrs. Allan Reesor. Family life is reflected in the life of the church. In 1960 there was a greater number of divorces than ever before and Canada was fourth in the consumption of alcohol.

The worship period was taken by Mrs. Faye Reesor, assisted by Mrs. Gerlie Milroy. The meeting closed with benediction, after which a delicious lunch was served.

The week of November 13th is canvassing week for Thornhaven school.

The General Motors Technical Centre has a wind tunnel for automobiles and trucks that is designed to generate an air stream ranging from 20 to 100 miles an hour — from a strong wind to a blast of hurricane force.
