Altona Feed and Supplies Ltd.

PH. STOUFFVILLE 210

Sales — Service — Trade — Terms

The site of this modern ranch-styled bungalow, south of Altona in Pickering Township, was once a heavily wooded swamp area on the property of the late Samuel Fretz. Four years of physical labor on the part of the owners, Mr. and Mrs. Lloyd Britton, has created this fine rural residence, one of the finest in the district. —Staff Photo

The electrical contract has been handled entirely by Ross Hetherington of Stouffville. The dining room fixture is pictured here. The exterior is illuminated by nine driveway lamp standards and twenty-five floodlights. —Staff Photo

Scenic Ranch-styled Bungalow Erected on Altona Bushland Site

Four years ago, a 1½ acre parcel of property at lot 30, conc. 9, south of Altona in Pickering Township was nothing but a heavily wooded marshland. That was before Mr. Lloyd Britton, formerly of Agincourt, rolled up his shirt sleeves and went to work. To-day, a beautiful ranch-styled brick bungalow stands on the site, a monumental product of Mr. Britton's ambition and skill.

Markham realtor, Mr. Jack Baird selected the lot and, due mainly to its proximity to a year-round flowing stream, the owner closed the deal in a matter of hours. Armed with axes, saws and shovels, Mr. and Mrs. Britton spent two summers at their Altona lot. "That was the way we spent our holidays," explained Mr. Britton. Mrs. Britton, a public school teacher at Lynwood Heights in Scarborough, drew up the design for their home. The exterior work was done by Mr. Morley Davis of Glasgow. The interior trim was done by Mr. Britton himself.

How does rural life compare to urban living? Motoring to their respective jobs presents some difficulties, especially in the winter time, but these inconveniences are trivial as compared with the clean, fresh smell of country air; pulling a trout from a private stream, taking a refreshing dip in a nature-made swimming pool or skating on a natural ice rink. Mr. and Mrs. Britton have five lovely children, Susan 13, Gail 10, Tommy 5, Gordon 3 and Mrs. Britton has a friendly boxer dog, a family pet. "When Penny had pups, we had to move," said Mrs. Britton. Mr. Britton is the proprietor of Pine Hills Auto Brokers in Scarborough.

The interior trimming in the Britton home depicts all the beauty and good taste that might be attributed to a woman's intuition. Planter boxes, encased in cut stone, are located in the living room and dining room. One fireplace is located in the living room and another extends into a basement recreation room. Much of the field stone, used in this work, came from the site. The residence has nine rooms and three bathrooms. There are thirteen picture windows, all with thermopanes. The house is heated by oil. Altogether, there is 2,550 square feet of living space.

The interior and exterior wiring and fixtures were installed by Ross Hetherington of Stouffville. There are nine lamp standards in the driveway and twenty-five front floodlights. In addition, there are lights over the horse-shoe pits and the outside barbecue. The wiring for these units has been installed 18 inches underground. A ceiling light in the living room lends itself to the sunburst design in the plaster, completed by Kenneth Fawthrop of Agincourt. The dining room fixture resembles a million sparkling diamonds. The hall light is similar, only smaller.

The floodlight spectacle, one of the most dazzling in the district, has transformed a rural residence into a picture postcard scene.

Other committee members include — Kalman Vizely, Claremont; Clifford Laycox, West Rouge; Don Beer, Brougham; Donald Hopkins, Bay Ridges; Wm. J. Greening, Bay Ridges and Mrs. Jean McPherson, Valley Farm Road. All were in attendance.

A number of delegations were heard. It was agreed that \$255.00 should be paid to the High School for arrears in rental fees contracted by the Dunbarton Athletic Club. This amount would be charged against the 1962 recreation budget.

Mr. Sandham addressed the committee and explained the proposed plant surrounding a stock-car race track. An artificial ice arena, swimming pool, restaurant, etc., that would be located within the township. It would be known as Pickering Speedway Limited.

A delegation from the Little Theatre Group was also heard. It was noted that the loss during the term of Sept. 1st to Dec. 31st, 1961 was \$180.00. Mr. Kal Vizely contended that the money expended was too high as compared with the number of persons it benefitted.

The Secretary was advised to ask all recreation associations to submit their proposed budgets for 1962 before Feb. 28th. This will assist the Committee in arriving at its budget for the current year.

Bernard Baker to Head Recreation Committee

Mr. F. Bernard Baker has been re-elected to the office of Chairman of the Pickering Twp. Recreation Committee at their inaugural meeting on Wednesday evening, Feb. 14. The choice of Mr. Baker was unanimous with the other members. Mrs. Lee Beer will continue in the position of Secretary.

The 4-H club programme in Ontario County for 1962 will be getting under way very shortly, according to the Ontario Department of Agriculture Office, in Uxbridge. They report that the number of members this year will probably set another record.

The 4-H club movement is active in thirty-seven countries of the world. In Canada last year over 80,000 boys and girls took part in this educational programme. The motto of the 4-H clubs is "Learn to do by doing". This is carried out by each member having a project which he or she must care for.

The projects being offered to boys and girls in Ontario County will be similar to last year. 4-H Dairy and Beef Calf Clubs, 4-H Grain and 4-H Potato Clubs will be organized. A 4-H Tractor Maintenance Club will be centered in Mara Township.

All boys and girls between the ages of 12 and 20, who would be interested in joining one of these clubs, should contact the Ontario Department of Agriculture in Uxbridge for particulars.

5 Out of 6 Hunters Are 'Killers' Says Reach Twp. Reeve

Edward Oyer, Reeve of Reach Township, claims that five out of every six hunters are "killers". Reeve Oyer spoke to Ontario County Council last week after the Agriculture and Re-forestation Committee asked that the farmer be compensated for losses incurred through hunters' carelessness. The committee supported a recommendation sponsored by the Farm Union Convention. It was suggested that the hunter license fees should be raised to cover this cost. The present fee is \$1.00.

The Reach Twp. Reeve charged that the usual practice was for the hunters to form groups and the farmers' livestock is slaughtered. He contended that the farmer should receive compensation for such negligence.

Deputy Reeve, Geo. Brooks of Whitby argued that he, as a hunter, would be paying for another's carelessness. He contended that this was not fair. He charged that there would always be the individual who would not take the necessary precautions. He noted that while the guilty party should be prosecuted to the fullest extent of the law, he did not feel it would be right to prosecute the innocent also.

Reeve Cecil Fralick of Seungog charged that a hike in the license fee would not get rid of the careless hunter. He charged that the payment could be raised to \$5 or \$10 but it would do no good. The matter was tabled.

COUNTY COURT OF REVISION REJECTED

Any proposed plan that would institute a County Court of Revision to cope with assessment appeals in the individual municipalities, was rejected last week at Whitby.

One of the most outspoken participants in the discussion was Geo. Brooks, Deputy Reeve of Whitby. "I oppose this measure very strongly," he said.

Reeve Cyril Morley of Pickering Village also questioned the benefits of such a move. "How can this court adjust assessments conscientiously when each municipality assesses in different ways?" he asked.

County Assessor, Mr. Gordon Hepditch pointed out that the County Court could be formed by bylaw and could be dissolved in the same way.

To Inspect Every Pig Not Economical Claims Reeve Down

Reeve Heber Down of Whitby Township expressed the opinion last week, at a meeting of Ontario County Council that tighter restrictions on meat inspection could be carried too far to be economical. Speaking on a resolution from Prince Edward County Council that asked for inspection of all meat products by Provincial and Federal authorities, Reeve Down charged that such a regulation could be a nuisance. He contended that if a farmer killed a pig for himself, it would not be worth his while to send for an Inspector. "You would be as well to give the pig to him," he said. His remarks were followed by echoes of laughter in the assembly.

Deputy Reeve, Geo. Brooks of Whitby, disagreed. He charged that there was no harm in having all meat inspected even if it was only for the farmer's own consumption. The report was accepted and filed.

Brooklin Guernsey Classed as Excellent

Fraserdale Rex's Melody, a registered Guernsey bred by the late Jack Fraser and presently owned by Robert W. Batty, Beechcroft Farms, Brooklin, has twice been classified "Excellent" and has recently placed 8th on the Milk Honour Roll.

"Melody" is the daughter of the well known bull McDonald Farms Pre Rex that is a Triple Gold Star Sire and the sire of two Gold Star Sons.

Her dam is the Gold and Seal producer Kelmar Sunshine's Leone "Very Good" that produced 108,562 lbs. of milk containing 4,721 lbs. of butterfat in nine lactations.

Mr. Batty has been breeding Guernseys since 1952 and is well known through the achievements of his herd in the showing where his home bred bull Beechcroft Victor's Thor won the Grand Championships at both the Royal and the C.N.E. and was named All Canadian Aged Bull in 1961.

AUDLEY

The U.C.W. met in the church last week with 11 ladies present. Mrs. G. Astley conducted the business. Plans were made for the World Day of Prayer on March 11th. The roll call was "heart". Mrs. Fred Puckrin told the story "Out of the Storm" from the missionary book.

John Butters, elder son of Rev. and Mrs. M. Butters, gave the address at the church service on Sunday afternoon. Mrs. R. Parker, Pickering, sang a solo. Mr. Bert Guthrie, an elder of the church, assisted in the service.

The Community Club will meet at the school Saturday night.

The boys who have been playing hockey on Betson pond, played a game Saturday with Brooklin.

Mr. and Mrs. A. Thompson and family of Dwight visited Sunday at the home of Mr. and Mrs. Bert Guthrie.

South Half of Brock Road to be Widened

Ontario County Roads Committee proposed that the south half of the Brock road be reconstructed, at a meeting of Ontario County Council at Whitby last week. The committee recommended that petitioners for speed reduction on Road No. 1 be informed that the county has no authority in such a matter.

A petition requesting reduction in speed limits on Road 1 between KH 2 and Brougham has been considered by the committee. The subject of speed control has been considered on many previous occasions but under present legislation there is not a solution which would be satisfactory to the petitioners. Speed limits on rural county roads can be reduced, in general, only if development along the road qualifies for:

(a) A "built up area" — fifty percent of the frontage for 600 feet on one side or 300 feet on both sides must be occupied by buildings. If such a concentration of development exists, a 30 mph limit can be posted.

(b) An "Urban Area" — to qualify as an urban area, buildings must be located at intervals of less than 100 feet for one quarter of a mile. A 40 mph limit can be established in an urban area.

The present 20 foot pavement with very narrow shoulders is a factor which contributes to accidents on Road 1. Because of this and other factors, our pro-

posed budget for 1962 provides for a reconstruction contract on the south half of the Brock road. When reconstructed, there will be a wider pavement (24 ft.) with safe shoulders (12 ft.) on either side.

The Brock road does not qualify for speed reduction under the Highway Traffic Act. We therefore recommend as follows:

(a) That the petitioners be advised of the county plans for improvement.

(b) That since the whole subject of speed regulation is a responsibility of the Provincial Department of Transport, the petitioners be advised that the county does not have authorization or jurisdiction to establish limits other than those outlined in the Highway Traffic Act.

E.M.O. BUDGET OKAYED ON A CLOSE VOTE

By a close vote of 20-19, Ontario County Council has given its approval to a \$35,000 budget to operate the Emergency Measures Organization for 1962. The issue had been the subject of much controversy on previous occasions but last week, the request was passed without discussion. Out of this \$35,000 figure, the County's share will be \$1,768.00.
