York U. C. Presbytery Supports City Churches

of the United Church of Canada, meeting in Queensville on Tuesday, Feb. 27, the Rev. Dr. A. E. MacKenzie, superintendent of Home Missions, described the difficulties facing churches in the downtown areas of Toronto. He stated most people have no idea of the work that is being done, and asked churches outzide the city to lend their support to this type of work.

"The pressures and distractions of the inner city are intense," Dr. MacKenzie said, "and the frustrations keen. There is need for greater understanding and assistance with what is being done. Dr. MacKenzie declarcd that one of the areas of life most underestimated by the church in recent years is that of crime, particularly juvenile crime, and pointed out the difficulties encountered in dealing with juveniles having a criminal record. In certain areas the attitude expressed by children eight and nine years old is: "I wouldn't be found dead in Sunday School."

LET'S TALK

The Right Time To Buy

As any automobile dealer will regretfully confirm, people don't visit used car lots when the weather is cold and snowing. ing this period, special Lenten They wait until

it is warm and sunny and all the other buyers are out car buying This is much like an investor

waiting until there is a great demand for a stock - pushing its price up before he decided to buy. As the King of Siam used to say: Is a puzzlement.

1962 car sales have been booming. . Starting in November which recorded the highest onemonth new car sales in history, new car buyers have been filling dealers' used car lots with many choice used models. If you wait until Spring sunshine sets the buying stage, you may have to shop from fewer offerings at higher prices. be far behind? Last week the

A used car should be thoroughly reconditioned if it is going to give its new owner satisfaction. A buyer should check if a car has been in a major wreck or was a taxi. If the recorded mileage represents something close to the true amount of wear. He should check for ring and valve wear and for worn shocks.

These and other required precautions are necessary if you are to avoid purchasing a vehicle that will later turn out to be a source of grief instead of satisfaction. If you buy your used car from us, you can be assured that we checked these points and others before we put it on our lot.
