a Will!

You needn't be wealthy to warrant a Will! In fact, the less you have to leave your loved ones, the more important it is to conserve it and make the most of it.

We, as executors of many estates, know the pitfalls, the endless difficulties and bitter disappointments that result from "home-made" Wills, or worse, from no Will at all!

Let our estate planning officers have the opportunity of explaining to you our valuable services in the construction of a well planned Will.

90% of all oil company product research in Canada is done by Imperial

The fuels your car will use in the future are being designed today. In Imperial's ultra-modern research laboratories at Sarnia, scientists and technicians are working to ensure that gasolines for today's cars—and tomorrow's—are tailored for top performance. In the last ten years alone Imperial has spent more than \$50 million to build the equipment needed to bring you top gasoline quality.

At Imperial Oil's laboratories at Sarnia, Ontario, more than 200 scientists and technicians are working to improve present petroleum products—and to develop new ones. Their research covers many fields, from gasolines to household detergents. Another 130 scientists and technicians are working at Imperial's Calgary laboratories on ways to find and produce more Canadian crude oil and natural gas. Imperial does more research than all other oil companies in Canada combined.
