

LET'S TALK CARS

What's The Future of Seat Belts?

The evidence is ample and is still piling up that seat belts could save a lot of lives each year if the public could be persuaded to use them.

The American Medical Association, whose members have the job of patching up the victims of car crashes, estimates that 10,000 lives could be saved each year from the 40,000-odd highway fatalities if the victims had been using belts.

No less an authority than the California State highway patrol believes that serious and fatal injuries in 1,500,000 road accidents last year could have been cut by 35%. All California and New York state vehicles are now equipped with belts.

Evidence that the public is ignoring the advice of safety authorities is the fact that seat belts are sold on only about 2% of automobiles delivered to the public with about one third of these not being used after they have been installed.

Perhaps one reason for the apathy is that the public thinks the belts are designed for high speed only. Statistics show otherwise — that the belts save lives in low-speed collisions. An end-over-ender at 30 miles per hour is likely to be fatal no matter how well you're belted in. But a 5 to 15 mile-per-hour intersection crash can kill you too if your head collides with the dash panel, windshield or the pavement.

Any day you're convinced, we'll be happy to install belts in your car promptly.

Suppose, for example, he has the makings of a concert pianist... or a scientist, a doctor, a lawyer, or a statesman. Now is the time to ensure that, when the time comes for it, you can afford his training. It's time to start looking after his future with the help of Scotiabank's Personal Security Program, or PSP—a protected savings plan that's exclusive with The Bank of Nova Scotia. Here's how PSP works: you select a savings goal (from \$100 to \$2,500), which you reach in 50 equal payments. As you save, you're life-insured for the full amount of your goal—at no added cost to you. When you reach your goal, you collect all you've saved, plus a cash bonus. PSP is the ideal way to save for any future, for a holiday abroad, or a boat, or a new home. Ask about PSP at your nearest Scotiabank.

Cliff Of The Week

"If you win, I'll buy you another stock of bananas."

In The Lions' Den

Monday September tenth was opening night for the Stouffville Lion's Club '62-'63 season and they started the season in a gay mood with a corn and wiener roast, held in the park.

Monday was wet, windy and miserable but fortune smiled and the rain stopped in time for the big "DO".

A good number of Lions and their ladies attended and were joined by a fine representation from Sunderland, who brought the travelling Lion with them.

The evening started with a sing-song while the corn and wieners were being cooked. Lack of instrumental lead made the start of most numbers rather weak and ragged as most of the gang seemed reluctant to start a song, however, the singing soon became loud even though not too musical and the sour notes that came through every now and then added greatly to the fun and laughter.

A great clatter of spoons, forks, tongs, etc. signalled that the food was ready and all sundry ate their fill. There was plenty of corn, hot-dogs and coffee.

After all were well fed, several relay races were held, egg and spoon, three-legged, balloon etc., causing much hilarity among the contestants and spectators alike. When the races were finished the crowd gathered around a huge bonfire for a final sing-song led by Lions John Faulds and Bob Winfield. We were well supplied with song-sheets but most of the songs requested were not on the sheets, however, this didn't matter in the least... it was too dark to read anyway.

Everyone had fun and thanks is due to the program and special activities committees for a very fine and enjoyable evening.
