HERE NOW! Tough new '63 Chevrolet Trucks

... THE ONES THAT WHIPPED THE BAJA RUN ... TOUGHEST UNDER THE SUN ... TO SHOW THE WORTH OF NEW ENGINES, FRAMES AND SUSPENSIONS!

Nature created the world's toughest proving ground for trucks — the Baja (bah hah) California Peninsula, Mexico. It's thousand miles of tortuous trail that defies travel. Chevrolet tackled this route with a Carry-all, a 1/2-ton pickup with new 230 cu.-in. 6-cylinder engine, a 3/4-ton pickup with new 292-cu.-in. *6-cylinder engine, a medium-duty unit with refrigerated van, a medium-duty diesel tanker and a heavy-duty tandem. Rocks, ruts, washboard and washout raked the trucks from bumper to bumper. Sand, dust and rivers tried to swallow them. Hour after hour was spent in low gear at temperature up to 122 degrees F. It took 17 days to go the 1,066 miles, and not one Chevrolet truck dropped out! Each day's run was finished on schedule! Trucks that can take this kind of beating can take on your toughest truck jobs. See these tough, quality-built '63 Chevrolet trucks with all their new improvements at your Chevrolet dealer's.

QUALITY TRUCKS COST LESS
A General Motors Value

When you came to a river, you got wet. This Baja river bottom was as rocky as the road. What a test for new '63 Chevrolet suspension systems!

Tight squeeze for the medium- and heavy-duty units in this gorge. Their new narrow front-ends certainly paid off. Users who operate in close quarters will like this new '63 feature.

Chevrolet's ladder-type frames withstood the severest punishment. Shown is the 3/4-ton pickup with new 292-cu.-in. *6 cylinder engine.

Temperatures as high as 122 degrees F. burned the land in the desert area around Dry Lake — one more ordeal any truck that goes to Baja has to shrug off.
