Blanket Notice

cough, pollomyelitis, venereal diseases, etc. The person afflicted with such an illness of course needs treatment leading to a cure. But even more important is to prevent the outbreak of these diseases in the community through effective

The earlier forms of control used, and which are still effective to-day, include isolation and quarantine, and such important developments as protected water supplies, pasteurization of milk, the use of antiseptics and aseptic techniques. But even these were seen to provide only Tues., 8 p.m.-Teacher Training partial control of these communicable diseases.

It was with the development of vaccination techniques that far more effective control could be realized. Vaccines, and toxoids were rapidly perfected as the new science of immunology 16-4 phoid fever vaccine, tetanus toxoid, Salk poliovirus vaccine are being constantly improved and refined. Their use was quickly developed by both private and public health physici-14.tf ans in a concerted attack on some of the more serious com-

With the widespread use of these vaccines the occurrence of the diseases concerned fell rapidly, epidemics became a thing of the past, those immunized who did catch the disease there were considerably fewer deaths. It then came to be realized that the complete first series of vaccinations could de-Peach's United Church Anni- cline in value over the years and that "booster" injections could bring back the original level of immunization, or even improve it. Modern immunization schedules take this into account and "booster" injec-The annual Fall Rummage tions are provided at stated intervals after the main course

municable diseases.

Your own doctor or your local medical officer of health should be consulted regarding 11 a.m.-Worship Service Turkey Supper, November 15 the present state of immunity of you and your family. Your Ontario Department of Health provides free stocks of all vaccines and toxoids in its attempt to achieve complete control of all communicable diseases. You are urged to accept and take advantage of these immunization programmes. Help your Department of Health to prevent the spread of diseases and to keep Ontario healthy.
