

Deputy-Reeve Opposed To Selling of Land to Hydro at \$3,000 an Acre

Deputy-Reeve, Mrs Jean McPherson charged, at a regular meeting of Pickering Twp. Council on Monday night, that the sale of 10.17 acres of land in an industrial area at \$3,000 per acre would be "a foolish piece of business."

through the same area. "It's been kicked around for three years," he said. He suggested that if there was any urgency for finalization of the deal, the Hydro would likely take action to expropriate the land.

Reeve Sherman Scott pointed out that the Hydro planned to erect a tower line through a southerly section of the municipality that would eventually hook up with a switching station at Cherrywood. He contended that no matter what route was finalized, there would be objections. He said that the agreement had been turned down by the Township Planning Board. The Reeve stated that the H.E.P.C. officials had thought that the \$3,000 per acre figure was rather high.

"I feel that they are getting a piece of very cheap property," argued councillor Hubert Wank, "as compared with some other parcels, it's practically a give-away."

Twp. Option On Land Opposed By Deputy

Deputy-Reeve, Mrs Jean McPherson criticized any move by the Council that would acquire parcels of industrial land by option in the Twp. of Pickering without first selling at least one of its present sites.

form of industry acquired first before we take an option on more land," she contended that under such an arrangement, the township would be expected to pick up its options before the expiry date.

"I'm anxious to see some form of industry acquired first before we take an option on more land," she contended that under such an arrangement, the township would be expected to pick up its options before the expiry date.

"If we were to do this at the point where we were short of land, it would be different," she said, "I'm not in favour of tying up land, then dropping it."

Councillor Milton Mowbray argued that the township would not be obligated to follow through with its purchase if such a move appeared unwise. "By taking an option, we would only be attempting to keep land prices in line."
