LET'S TALK CARS
A New Year - 1963

In every firm there is an annual inventory, or stock-taking time. Almost everybody drops what they're doing and works around every seat cushion and pencil stub and then the accountants add it up and you've got your "assets."

Sometimes inventory time is at the end of December, often it's at the end of some other month.

The end of the year, though, is the usual time to take stock of the other assets we all have that can't be added up in dollars and cents on a balance sheet.

Too many of us overlook the assets that can't be listed with a dollar sign. The freedom to go to the church of our choice, the freedom to read what we want and say what we want and to go where we want has been preserved through another year of peace.

In the short range, we often forget these things. The daily battles of the dollar-sign seem more important. But how much would we pay for them if we lost them?

With the end of the year at hand and a good balance sheet of both assets and liabilities at hand, the time has come to wish all our friends happiness for the New Year. Happy and Prosperous is the way it's usually put. We hope the prosperity includes not only the dollar-sign assets but also the less tangible but equally important kind. You need both for real happiness.
