Mrs. Eva Steckley of Bethesda spent a few days with Mr. and Mrs. S. N. Doner.

### Was N. York D.R.O. Nearly 30 Years

The funeral service was conducted in Richmond Hill on Wednesday afternoon for the late Arthur J. Wells, returning officer for North York provincial riding for nearly 30 years. He was seriously injured in a motor car accident a few weeks ago. Mr. Wells was 69 and was predeceased by his wife in 1961.

Arthur Wells was born in King Township near Temperanceville. As a young man he left King for Toronto, going into the insurance business. In 1930 he moved to Maple and continued with insurance and real estate.

He had organized Y. County for 10 provincial elections, knew every polling sub-division, DRO and Poll Clerk.

Honorary pallbearers on Wednesday were, Major Lex Mackenzie MPP and Chas. Hooper, Markham Twp. deputy-reeve and former Warden.

### Farm Credit Act Terms Made Easier

Two amendments have been announced in regulations of the Farm Credit Act.

One provides for reductions in the appraisal fee charged to applicants by the crown lending agency. The other permits postponement of loan repayment instalments under special circumstances.

Maximum Of \$100

Appraisal fees of \$50 and \$100—depending on the type of loan—had been charged previously. The announcement last week by Agriculture Minister Hamilton said the change will mean lower appraisal fees for smaller loans.

Henceforth, farmers applying under one section of the act will pay \$10 down on the appraisal cost and 40 cents for each \$100 worth of loan will be deducted when the loan is made.

Under a second part of the act, the farm applicant will pay \$10 down plus a deduction of 50 cents for each \$100 worth of loan on approval—or \$100 if that works out as a smaller amount than the total deductions.

Will Refund Fees

The corporation will continue to refund fees if no appraisal is made. Loan instalment postponements can be arranged for borrowers developing a new enterprise from which little return is expected for the first year or so.

Mr. Hamilton said one such example would be a switch to beef production from dairying—part of a current campaign to increase Canadian meat supplies and trim dairy surpluses.
