ASK ANY MAN WHO USES
AEROPRILLS
 33.5% NITROGEN FERTILIZER

Ask any one of thousands of Canadian farmers who have used AeropriLLS for top dressing winter wheat and he'll tell you what a practical and profitable operation it has been.

Many farmers have made \$3.00 extra profit for every \$1.00 invested in AeropriLLS!

Top dressing winter wheat as soon as you can get on the land in the spring will promote stouling, produce more stems, more heads and bigger yields — in most cases 10 bushels more per acre when 100 lbs. per acre of AeropriLLS are applied.

AeropriLLS are easy to handle and are prilled and coated for uniform spreading.

Order AeropriLLS from your fertilizer dealer or agent today.
