## Enumeration Dates Announced For Ontario Provincial Election

Premier John Robarts has announced the following dates for enumeration for voters' lists for the September 25th general election:  
Urban enumeration: August 26 to 29 inclusive.  
Revision: September 13 and 14.  
Rural enumeration: September 3 to 6 inclusive.  
"Under our election laws as they have been developed since 1951, man" provisions have

been made to ensure that no qualified voter who wishes to vote need lose his franchise," Mr. Robarts said. "I have asked the chief election officer to make absolutely sure that all these provisions for the protection of the right of the voter to vote are made very clear in order that no one shall be left off the voters' list."

The enumeration procedure, Mr. Robarts explained, is as follows:

After the lists have been posted, any person, whether the voter himself, candidate, an agent or a neighbour of the voter can notify the returning officer in writing of the omission of a voter from the enumerator's list. These notices may be given to the returning officer any time up to and including the day before the revision starts.

Upon receipt of such notice the returning officer sends a team of special enumerators to enumerate the voter of whom notice has been given and any other qualified voter in the premises who may have been omitted. This re-enumeration may proceed up to the day before the close of the revision and the names so enumerated, in the absence of valid objection, are added by the revising officer to the lists on the last day of revision.

Any qualified voter may also make application to the revising officer in person to be added to the list or if unable to attend because of illness, absence, etc., application may be made on his behalf by a relative by blood or marriage or by his employer.

"This means," Mr. Robarts said, "that the compilation of the urban lists is a continuing process which will continue throughout the latter part of August and for about the first half of September."

Even if a qualified voter in an urban polling subdivision fails to take advantage of these simple methods of having his name added to the list he may still, if he is on the municipal list, be vouched for by a voter whose name is on the provin-

## Local Potato Growers Testing New Varieties

A Potato Growers' meeting was held at the farm of Mr. Albert Hockley, Claremont, R.R. 1.

The meeting was sponsored by the Ontario County Potato Growers' Association and the Ontario Department of Agriculture. A number of commercial potato growers in the County and the members of the Scott 4-H Potato Club were present.

Mr. R. E. Goodin, Farm Products Inspection Service, Toronto, gave a talk on disease and insect control on potatoes. The potato variety tests are located at Mr. Hockley's farm. There are seven varieties in the test among which are some fairly new varieties which are being compared for yield and quality with the old standard varieties, such as Irish Cobbler and Sebago. Mr. Goodin went over each of these potato plots, outlining the strong and weak points of each variety.

At the conclusion of the field meeting, the 4-H club members judged one class of potatoes under the direction of Mr. Waller Kerry, one of the Leaders of the Scott 4-H Potato Club, and Mr. Lynn Fair, Agricultural Representative.

QUATE AT ORILLIA FOLK  
FESTIVAL SAYS WRITER

Before the Mariposa Folk Festival subject is closed (perhaps for good) a few comments from our Cedar Grove on-the-spot reporter should be noted. The observations and opinions, incidentally, come from a young folk song enthusiast who, with long range planning, attended the festival to hear the concerts, and the concerts were excellent. Among many outstanding singers many of whom were Canadian, a group of five Jamaican boys who held third place in a world competition were exceptional.

The considered opinion of our reporter was that the rowdiness was caused not by the folksong enthusiasts but by a small percentage of attendants who seemed to be bent on breaking things up. Folk singing has become so popular in the last few years that Orillia should have expected record crowds and three restaurants and the local hotels were grossly insufficient to serve the needs of almost twenty thousand and crying teenage stomachs. Some of the young people sleeping in cars and on the street were there because accommodation was so poorly organized that there was no place to stay.

Litter baskets were few and far between and fifty policemen when 500 were needed allowed small troubles to grow unchecked.

It is too bad that the urge to sing and hear folk songs and the need of a place for young people to do it together has been ruined by a town interested in making 50,000 dollars but with so little foresight, organization and control. Our reporter enjoyed the concerts encountered no difficulties with room and board but would never return unless some drastic changes were made more by the town of Orillia than by its visitors.

And back in Cedar Grove one of the best picnics ever was held on Sat. Aug. 10th with a large attendance, perfect weather and lots to eat. Shuffleboard is gaining popularity every week and the proposed new courts will arrive none too soon.

Margaret Davis had a nice drawing of a dog in the Sunday School paper Hi Venture this week.

And speaking of dogs...The Hamill's stray pooch succumbed to distemper recently and his place is being taken by a fine little poodle. However, distemper being the vicious infection that it is, said pooch must undergo a series of shots before residing in the Hamill's home. Just so he won't get lonely during his out-patient term, Maureen has been poodle-sitting at her grandmother's recently until the new pooch is
