"He'll be all right... The first few days on a new job are always rough."

Fertilizer Firm Established At Mount Albert

York County will have a new industry brought about by the joint venture of two local men and one of the country's largest chemical producers.

The Lawrie brothers of Markham, Harold and Bob, made it known this week that they have completed negotiations with Cyanamid of Canada Ltd. to establish the county's first dry blending fertilizer plant at Mount Albert. The new company will be known as Lawrie Fertilizers Limited. Construction has already started and the new plant will assure the availability of high analysis fertilizers in both bag and bulk forms.

"Among the many advantages to be derived by the farmers in the area," stated Bob Lawrie "will be the availability of soil testing, and subsequently a custom fertilizer service."

"It will be a complete service not previously available locally and the new granular fertilizers which will be offered the farmer will be free-flowing and will facilitate handling and application," he said. "As a special service, application equipment will be available."

Cyanamid of Canada Limited, the Lawrie brothers partner in this new venture, is one of the major basic producers of nitrogen and phosphate fertilizers. With four of its eight plants producing products for the agricultural industry. Cyanamid, in addition to fertilizer products, manufactures and distributes a full line of chemicals for animal feed and health as well as for plant protection.

EDUCATION: Something to enable people to get into more expensive trouble.

The Toronto District Gladious Society held their annual Exhibition on Friday and Saturday Aug. 16 and 17 in the Coliseum Building, C.N.E. Rev. D. Sargent of Altona is a director of the Society. He noted there were more entries than in previous years and the decorative arrangement classes were outstanding. Rev. TIPS
 On Fast, Healthy, more Profitable Growth in Hogs!

Purina Pig-Plus is a careful blend of "plus" ingredients — vitamins, minerals and antibiotics — selected and combined by Purina Research Scientists to maintain a strong, healthy growth for your suckling pigs and weaned pigs. If you have runty pigs (not stunted by disease), 2 pounds of Pig-Plus in every 100 pounds of complete ration will give them the nutritional boost they need to get them on the way to healthy growth.

Pig-Plus fortifies pig rations during the stress periods: during weaning, following disease or vaccination — it helps your pigs snap back fast. Pig-Plus will help you get feeder pigs off to a fast start; to build up suckled-down sows; it helps to control some types of enteritis and scours; keeps hard-working boars in condition; and is an excellent conditioner for pigs being fitted for the show ring.

If you're in the pig business... drop in at our Store with the Check-board Sign and let us tell you how Purina Pig-Plus can help you to bigger hog profits.
