

# Happenings at Cedar Grove

(Sept. 26)  
 First the Nature Notes: Why one year should be any better than another for bird migration watching is hard to say but this year seems to be one of the best. The fields and lanes have harboured flocks of flickers flashing their golden wings in the autumn sun and Bert Tapscott entertained a pair of geese last week. The trees are turning early and beautifully and although Northern Lights herald cold weather we are still enjoying fair and fairly warm days.  
 Monarch butterflies are floating uncertainly around Cedar Grove in great numbers this year and although they band them and prove it, I still don't think these delicate creatures ever really make winter in Texas.  
 You may be interested in a short personal nature note. I

always claim one rose is all anyone can appreciate at one time and a friend who knows this brought me one rose last week. But such a rose. It was the popular Peace Rose with pale pink petals glowing to yellow at the centre and by actual measurement was 6" across and 5" deep. This must surely be classed with Albert Booth's huge lemons.  
 So much for nature but still on the subject of Autumn: Be sure to spread the word about the Apple Butter Festival to be held over Thanksgiving weekend at Woodland Park. By next week the committee will have all the details worked out but in the meantime the date is set, all day Saturday and Monday.  
 And remember a Schnitzing bee is called for Thursday evening, October 10th in the clubhouse at Cedarena. Bring sharp knives, apple peelers and

a pair of willing hands, there will be lots of apples to prepare for the pots.  
 It was a mile chilly for a w-liner roast last Saturday night but perfect weather for dancing and a good big fire. The Young People were up north over the weekend and were missed at the dance but the rest had a fine time and a good dance.

John Addison's letter to us last week included a paragraph on our long overdue commuter service from this area to Toronto. He seems "sure this can be a reality when the CNR Marshalling Yards are completed." Well, that's something to tide us over the remarkable mess at the Town Line and Se-well's Road. The question now is, what goes into that enormous hole so recently excavated.  
 It may be a good idea to lock doors generally left open until a petty thief working Hillside district is caught. He managed to lift some money from Mrs. Murlison's purse one day recently and the police have not yet caught up to him, although they are pretty sure who he is.  
 Grade 12 MDHS had a wonderful trip to Stratford this week to see a Comedy of Errors. The students thought the production hilarious and even a bus breakdown on the way home failed to dull a glorious experience.

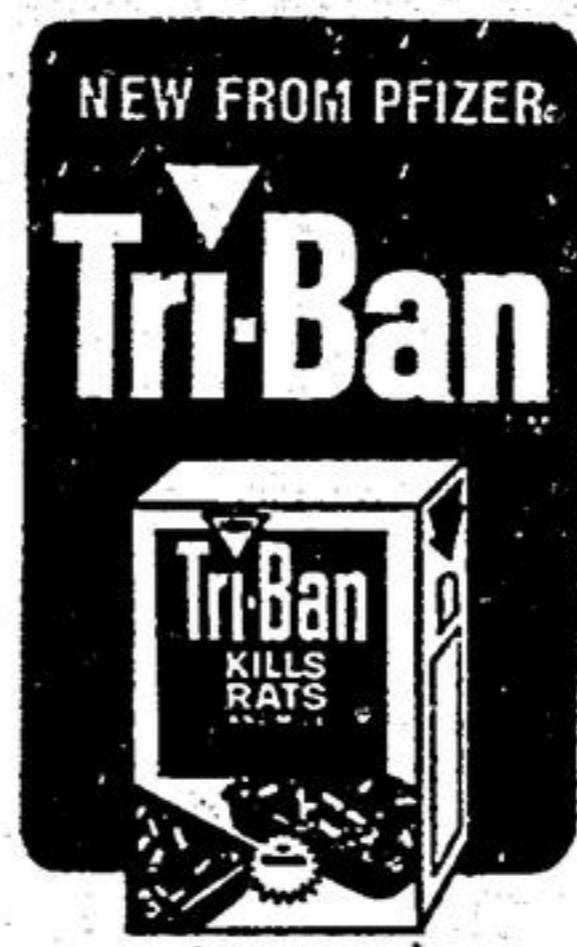

In a special service at Zion Church recently the Explorers graduated to CGIT and the young Messengers went into Explorers.

**Notes About Neighbours**  
 Audrey Murlison has begun her two year session teaching children of the RCAF in Europe and her first year is in France. Audrey has hopes of a year in Germany teaching but has already done some travelling there including Berlin in a new Volkswagen. For those of you who have been enquiring about her address here it is: Miss Audrey Murlison, D.N.D. School Teacher, 1 (F) Wing R.C.A.F., Capville, France.

Mary Barrow, daughter of Mr. and Mrs. Frank Robb and her husband Reg celebrated 25 years of married life last week. The day was Thursday but the celebration for the family was held Saturday night at Mr. and Mrs. Jim Crichtons.

Colin Reesor has returned to MacDonald College in Quebec and Colleen has begun her course at Teacher's College in Toronto.  
 Lorna Harrington who graduated last spring is now working at the University of Toronto.

Did you see the very nice article on Chris Chapman in the Star last week? Lotta Dempsey condensed an interview of several hours into a tight, neat description of Chris, his work and his ambitions.
