

June is Dairy Month

According to the Canadian Cancer Society, the first symptoms of many types of cancer are easily confused with those of minor illnesses. Fatigue, indigestion, cough or hoarseness are all symptoms found in a variety of other diseases, many of them minor. On the other hand, any of these symptoms could also indicate the presence of cancer. Don't take a chance. See your doctor.

MUSSELMAN'S LAKE

(June 4)

The Lake was really alive last weekend. The Annual Stouffville Skating Club Dance was held at Cedar Beach and there was an excellent turnout for the event of the year. Sunny Valley also came to life after a couple of year's rest. The Combo sounded good from where we were. Come Saturday night and Glendale started its Summer Dance Season. Now all three dance pavilions are on the go again and according to old timers it's like old times again. The cool weather kept the boats and skiers off the water but there were just about as many cars around as usual.

We would like to say a farewell and also a hello to the folks at Shalimar. Mr. and Mrs. Reg He left last Saturday for their new home in Stouffville. The Sunday traffic along No. 48 Hwy. is not improving. There was a very bad accident again there on Sunday. The cost of a traffic light at the corners is so insignificant as compared to the

property damage and even more important the physical harm that is done at this intersection every year. Certainly there must be someone in high places that will be able to see the need before lives are lost.
