

At the High School... Magazine Drive Starts Friday

Alan Lee, 11A

One of the School's most important tasks is the Magazine Drive. This, in past years has been a symbol of our school spirit. Each year we have been very successful and have won the competition over many other schools in our area.

Just in case you don't know what it's all about, I had better explain. Each year the Curtis Publishing Company goes to each school with lists of the popular magazines. The school then sells these magazines to their relatives and friends. The school receives 50% profit on every subscription. This money would normally go to the Magazine Companies but now it goes to the Student Council for some worthy cause. The school which sells the most per pupil gets an extra big prize.

\$3,000. This Year's Goal

It was decided to go for \$3,000. In subscriptions this year. There are small prizes for the pupils who reach ten, twenty and thirty dollars worth of orders. No student is pushed to sell nor asked to go from door to door. The student with the best total receives an FM, AM radio. Each day draws will be held and the lucky pupil receives a small prize. A high-five is the winning prize of the final big draw. The room with the highest per pupil total gets to see a movie of their choice.

Above all, other than money, is the school spirit which is built up to a peak and continues all year. Last year we sold \$1,300. In orders and made \$1,500. profit. This bought a

badly needed score clock for the gym and a trampoline the year before. You can see the money is put to good use and is quite appreciated. So I ask you, the public, to buy magazin subscriptions from the school before you buy elsewhere. This encourages renewals. You get the same magazine for the same price (if not a little cheaper) and you give the school 50% profit that would normally go to the publishers. Be a good citizen and buy from the school. Just contact the school or your nearest friendly pupil. Your support is badly needed. And one last word to the students. Everything depends on you and your mother or aunt would just love three years supply of 'Life' or 'Post'. The more you sell, the better your Student Council can function. Be the first one to wear that first order button!

STAFF: General Manager: Alan Lee Assistant General Managers: Bill Lennox & Harry Howard Student Advisor: Anna May Sanders, Prize Manager: Peter Hamblly, Advertisement Head: Karen Dedlow.

Attention!

Herbert Otto

This year, as in the past, Stouffville and the surrounding areas will be attacked by a wave of eager students, all willing to sell you a subscription, or two. The Magazine Drive will start on the eighth of October, and continue over Thanksgiving

G.A.A. Report

Already the G.A.A. has started its year with success. The selling of fudge at the initiation dance Friday, Sept. 25 went over well. With the football season in full swing we have decided to sell apples and peanuts at our home games. This added attraction is bound to give life to the games.

October 20, the Volleyball Tournament will be held at our school with our school entering a junior and senior volleyball team.

weekend, and through the following week.

This is a time when school talk centres around "selling the first subscription, the prizes for selling ten, twenty or thirty dollars worth of subscriptions, class competition, and school spirit." However, there is one thing which underlies all these themes, which is not spoken of. This is, will we find a ready buyer for a subscription? Judging from the past years, there seems to be little trouble here. We have in the past years, won our School Spirit trophy, and I hope to do so again.

But what is the purpose behind all this? There are several. It provides a goal for all the students, stimulate school cooperation. It provides funds for the Students' Council to work with, and it enables us to purchase useful items for the school. Whatever the reasons, the school spirit is there. Can we depend upon your school spirit too?

Hueco Tanks in the Hueco Mountains near El Paso, Texas, are large natural cisterns formed by depression in limestone.

Our Purpose In School

Lynda Parker, 10D

Our purpose in school is to concentrate on our studies. Being normal teenagers, the tendency to chatter over last night's football game, or the latest dance style, is practically impossible to suppress.

Realizing that talking during classes is completely frowned upon, it seems to me, the simple solution would be for the faculty to allow us to let off our natural exuberance between classes. There would then, be no reason for intruding on our teachers' concentrated efforts to "teach us our lessons", to pass on the latest gossip. We would know the opportunity would be available en-route from English to Math. With chatter completely out of our systems, we could then devote our attentions to the next assignment.

Of course, there would be utter bedlam in the halls between classes, but think of the peace and quiet of the classes in session.

Barb Howard Is 2nd Vice Pres.

Eighteen year old Barbara Howard, 2nd vice president of the Student's Council of Stouffville Dist. High School can look back on four successful years of both academic and extra-curricular activity. Now in grade 13, she plans, on graduation to enroll at the University of Toronto and major in Mathematics and Physics.

Barbara's energy and enthusiasm knows no bounds and past records show that she has played an important part in almost every organized function in the school schedule of events. She was Stouffville High's first Post Office Queen and for the past 3 years, has been a regular with the cheerleader group. She is an avid sports enthusiast. As a sideline spectator, she enjoys football best. As an active participant, she loves basketball. As a hobby, she likes knitting.

Student Council work is not new for Barbara. She held the position of Secretary in 1962-63. She is a member of the Year Book staff this year.

Following ten months of this kind of activity, one might expect Barbara to take a well-earned rest during the summer vacation period. But no — she acquires a position on the temporary staff of the Scarborough General Hospital.

When about going steady? Barbara isn't in favour of the idea. "It ties a person down too much," she said.

Close-Up On Mr. Nielsen

Jim Hill

One of the additions to our staff this year is a Vancouver born gentleman, who has come to us via England, and Hamilton.

Mr. Nielsen attended Red Deer High School in Alberta, where he was President of the Student Council. Upon graduation he entered the University of Alberta, where he majored in philosophy, and he completed his U. of A. life with a post-graduate course in Teacher Training.

It was then off to England with the reason being, "I was curious, and wanted to see Stonehenge." While in the British Isles he taught at a boys' private school. Mr. Nielsen felt the British school system is a good one with only the upper third of the students going to an all academic school, while the other two-thirds attend semi-technical schools. He added that this is not all good but it has its advantages. He also added that he is glad to be in Stouffville.

On his return from England, Hamilton was his next stop. Here three years of studying Honours English and teaching at Hillfield College, a boys' private school, occupied most of his spare moments.

Stouffville is now the home of Mr. Nielsen where he has taken up residence with his wife and three children.

On arrival at S.D.H.S. he immediately got into the "swing of things" by volunteering to coach the rugby team. His reason was his belief that every boy should have the opportunity to participate in athletics. This is only one of his many and varied interests which stretch from philately to playing the trumpet.

With his sound knowledge in English Literature and composition he teaches Grades 9, 12 and 13 classes.

We hope that he enjoys a successful year in Stouffville, and we know that he will be a valuable addition to the staff.

The Stouffville Dist. High School news staff has been re-organized for the 1964-65 year and a prize is reserved each week in The Tribune for items on high school activities. The student group is pictured here: Front Row (left to right) — Alan Lee, Karen Hamilton, Nelda Booth, Rear Row (left to right) — Dieter Schnell, Karen Dedlow, Mr. Harding (staff), Margaret Sheridan, Randy Mole. The news editor is Karen Hamilton. — Staff Photo.

Juniors Beat Woodbridge 8-6

Randy Mole, 11A

In their first league game last Friday, our junior football team, The Trojans, defeated Woodbridge 8-6 in their own camp with a sensational show of unity and co-ordination.

From the opening kick-off, The Trojans surpassed their opponents in every department and it was no surprise to their observers when Stouffville led 2-0 at the end of the first half.

In the second half, our line began opening up holes. Pete Turner's bullet pass found its mark and Bill McNelly carried the ball over the 10 yard line for the T.D. The convert was blocked but we were well out in front 8-0.

That ended the Stouffville scoring but not their spectacular performance. Gary Williams was quick to recover a fumble by Woodbridge and Dave Glover and Pat Smith completed some

great runs. Pat picked up a total of 67 yards. With the minute flag down, Woodbridge penetrated our defence and counted a touch-down. The convert was good but there was a flag on the play and it was called back. The game ended 8-6.

The Trojans suffered the loss of Dave Ferguson who, at the end of the first half received a nasty blow that resulted in a broken nose. Blair Wagh finished the contest although he had a sprained finger.

Due to the win, Mr. Rehill called off the Monday workout but the team will be ready this Friday for a contest against Langstaff.

During 1963, the GM of Canada plants at Oshawa consumed more electricity than the city of Belleville.

Girls' Sports

Nancy Stover

The junior and senior volleyball teams were chosen last week. They are as follows:

Junior
Yvette Malloy
Faye Emmerson
Jackie Cousse
Marg. Sheridan
Bonnie Heatherington
Jane Terwouds
Hildegard Otto
Beth Paisley
Cathy Bacon.

Senior
Gail Nelson
Gail Hallman
Donna Knox
Darlene Watson
Nelda Booth
Linda Wright
Linda Wright
Karen Bartholomew
Nancy Stover

Both teams have been practicing regularly and show much promise. The tournament is to be held in the Stouffville Dist. High School auditorium on Oct. 20.

Our cheerleaders were also chosen. The team consists of

Janice Smith, Marg. Aida, Marg. Hardie, Nancy Wideman, Sharon Wideman, Karen Dedlow, Colleen Hisey and Susan Schell.

S.D.H.S. Says—

Question: Do you think students should be allowed to talk during the time when they go from class to class?

Answer: I think that talking could be allowed in the halls between periods on a trial basis. If the students show that they can carry on sensibly without an excess of noise, the idea should be adopted. If they cannot, the idea should be dropped.

A Student.

Answer: I think that we should not be allowed to talk in the halls between periods because the noise created would disturb classes having double periods. When we are quiet, it creates an orderly effect, the students are less likely to be noisy when entering the room, and will settle down to work more quickly.

A Student.
