### Twp. Council Asks More Facts On School Addition

Markham Township Council consented in principle to a project of commencing the addition of vocational and technical departments to the Stouffville District High School, on Monday, but requested to know exactly how much money would be required and future costs. Additional facts are expected to be ready for council by next week's meeting.

Mrs. June Button, vice chairman of the Stouffville High School Board and Mr. Bruce Davidson, Markham Twp. representative, appeared before the township council for consent to begin the vocational and two year technical training. Mrs. Button explained to Markham Council that the government would pay 74% of the cost of the additional two rooms which would be required which is estimated at \$110,000. The share left for the municipalities would be \$28,500 and it was expected this year's Board surplus would take care of this amount. The estimated cost of the added technical equipment was \$22,500. She said the school would receive an extra grant of \$130 for each pupil enrolled in the special course.

It was explained that the Board was concerned with the heavy drop-out of students and said that while there were five Grade 9 classes this year, only 60 students remained after Gr. 10 to enter Gr. 12.

"I would like to get the exact picture of just what you're requesting, how much money you want, and when," Mrs. Button said that there was no more definite figures available immediately but stated that at present the Board only required consent of the proposed procedure.
