RATCLIFF'S I. G. A. FOODLINER — Stouffville

"Our Child Was Molested"

"It is not enough to call child molesting a disease. We must attack it with all our energy and resources, just as we attacked polio and smallpox." That is the opinion of a Vancouver mother whose ten-year-old daughter was molested two years ago. Since her personal involvement, she has tried to find out all known facts about child molesting. In an article in the January issue of Chatelaine magazine, she expressed surprise at parents who were reluctant to call police and lay charges, while knowing that molesting had occurred. This attitude is confirmed by a California State Report on Sex Crimes. It shows that for every 100 sex crimes committed,

only twenty are reported to the police. She learned that two thirds of molesters were known to both children and their parents, and that half of the offences took place in the homes of the child or the molester. This was pointed up by a study made at the Forensic Clinic of the Toronto Psychiatric Hospital. The findings were in line with those of the Florida State Mental Hospital. Despite amendments to the Criminal Code in 1956, she said Canada lagged behind many other countries in treatment programs for child molesters and sexual psychopaths. Outside the Toronto Forensic Clinic, there were no treatment facilities for such men.

WEDDING STATIONERY in Photo Script

THERMO-ENGRAVED
by the creators of The Bouquet Invitation Line

THERMO-ENGRAVING is rich, raised lettering... distinctive to see, luxurious to the touch — as elegant as you could possibly wish.

THERMO-ENGRAVING has that individual look that sets apart fine craftsmanship.

But it isn't nearly as costly as you'd expect (only about half as much, in fact).

Many other styles from which to choose.
