CEDAR GROVE NEWS

When you talk about the 'biggest snowstorm to hit this area in 21 years' (and who isn't) depends on your point of view. Most of the commuters looked like snow shovels were a built-in part of their apparel by Sunday. Everyone with a tractor and plow was rearranging the piles of snow. Peter McCowan with his front-end loader moved the snow around all day Saturday. Bob Lapp managed to get his truck to the 10th and 14th on Thursday night but couldn't quite get it home. He manoeuvred it gingerly up the 10th to Carr's but could not get it off the road. So Bob spent the night sleeping in the truck. Schools were out early Thursday and some were closed on Friday. Bus drivers went quiet mad but they got all their charges home somehow. As fast as the plows cleared the roads they filled in again and driving was a job for an expert for about three days. But speak to the kids. Now, how the story changes. They never had so much fun in their lives. Some of the smallest had never seen the yard there are forts and snowmen and the hills are alive at recess and noon with toboggans, flying saucers and skis.

night. Apart from the kids, there was only Marg Walton and Dave Ritchie. The answer must have been that the rest of the village had all the exercise they needed long before Friday evening.

Nature had her way and man coped as best he could. Now it is back to normal in most places and isn't it beautiful. Surely we would have felt cheated had winter not given us one good blast.

If you want to remember the snowfall pleasantly, better avoid talking about it to Dick and Muriel Dare. They were moving from Coakwell's house to Gaston's in the midst of it all.

This weekend is the big one for Peter McCowan. He and Libby will leave Friday night for a spot near Huntsville where there will be a weekend of ice racing. A course is plowed out on the lake complete with the curves and straightaways and conventional cars drive the course on the ice. Peter will drive the Morris. Considering the hazards of snow tires on ice, it is interesting to note that these cars are generally equipped with snow tires, some use spikes. The reason is that the course often gets slushy and these tires are best when that happens. It is quite a sport. The cars get up as high as 60 mph on the straightaway and often loop off on the cur-

ves-but injuries are rare because the tumbles are taken in the snow.

Johnn' Ineson is a Hero. At least he is getting the hero treatment at MacDonald College this week. The college has been playing hockey among the other colleges and last week OMC at Kingston. MacDonald not only won 3-2 but our John put in two out of three, including the winning goal. Congratulations.

Colin Reesor who also attends MacDonald, has been elected vice-president of the Student Council which is a dandy appointment because it is the Vice Pres. who visits other colleges, Guelph, McGill, etc. representing MacDonald.

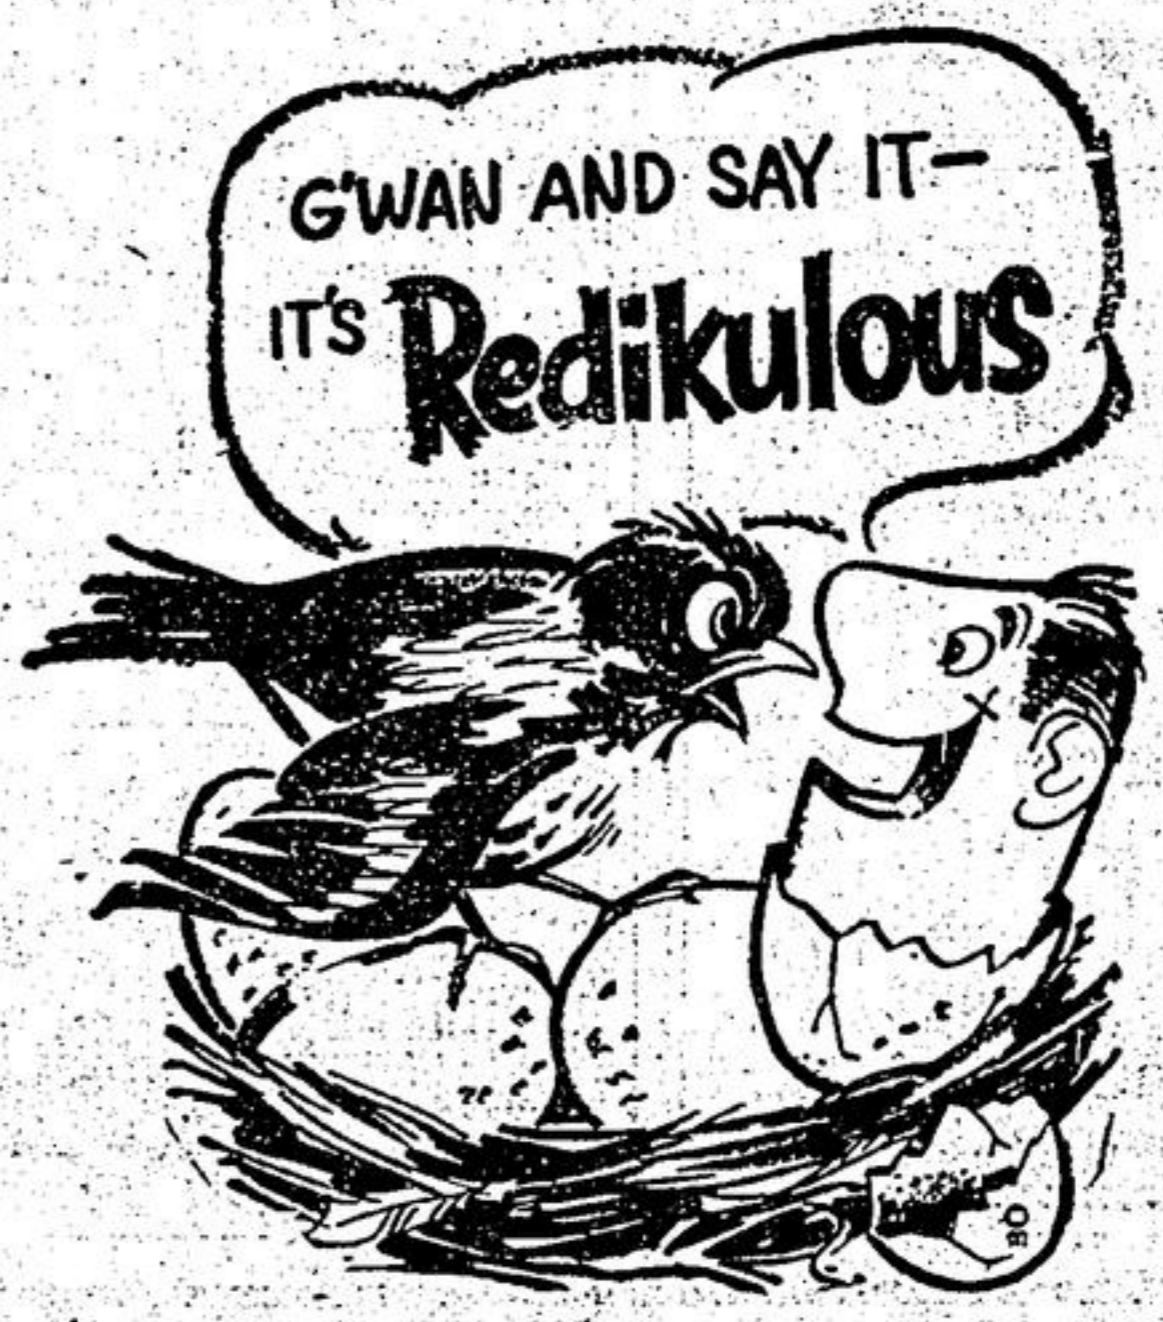

This week's Euchre winners were Margaret Coathup, Louella Lemon, Jean Hunter, Harvey Swain, Will Morris, Clarence Coyte. Next Euchre will be March 15th.

This Friday is Minor Hockey Night at Markham. All minor teams will have a chance to play and it is one of the best nights for fun and sport we have around here. The small ones will play early and they are wonderful to watch so get there about 7 so you won't miss anything.

Groom: How did you make this cake, dear?
 Bride: "Here's the recipe. I clipped it out of The Stouffville Tribune."
 Groom: "Are you sure you read the right side? On the other side it tells how to make a rock garden."

Dick COFFEY & Jim BARTLEY

are looking forward to the biggest month of new car sales during March, since being established in Stouffville.
