\$1 for a cake of soap
The "soap" is NEUTROGENA. But it is unlike any soap you've ever used! Many women with dry skins just won't use soap. They've learned from experience that some soaps dry their skin - removing the natural oils as they clean. But NEUTROGENA's glycerine formula does not de-fat the skin. NEUTROGENA is non-alkaline, mild, and so pure, it's transparent. Yes, NEUTROGENA costs \$1 a cake, but what it does is priceless!
