

# Because your pasture problems are unique...

**CO-OP\* DEVELOPED  
PRESCRIPTION MIXED SEED**

The guesswork has been removed from hay and pasture seed selection. Now, you can get varieties mixed exactly right for higher yields and profits on any farm.

Simply consult your Co-operative Soil and Crop Specialist. Discuss with him, your particular hay and pasture requirements... acreage, type of soil, drainage, size of herd, etc. . . .

Using Department of Agriculture recommendations as a basis, he will recommend a mixture of high quality name-variety seeds. These will be blended with prescription accuracy in the exclusive CO-OP Seed Mixer.

**CHIROPRACTIC VIEWPOINT:**  
**WOMEN AND POSTURE**  
Our modern tempo can quickly drain the health reserves of women. Those who work may have to sit at a desk or typewriter all day, or stand on their feet confined to a narrow space behind a sales counter, and usually wearing improper footwear. Pregnancy and childbearing also frequently bring unavoidable complications as all too many women can testify. Result: Strained positions and postures that lead to sagging of abdominal and pelvic organs, dragging pressure on vital nerves and spinal distortion that disturbs the nerve supply to the reproductive organs and blood vessels within the female pelvic region. How many women from the teens to middle age, have wondered why it is their lot to be burdened with the irksome symptoms of painful, excessive, and irregular menstruation, and low backache? Certainly poor body mechanics is the cause in a great majority of the cases. This has been demonstrated by the fact that these symptoms have entirely disappeared in case after case where Chiropractic care improved body mechanics sufficiently to correct the distortion.

Mrs. Allan Ellicott has left for Spring Lake, North Carolina to visit with her daughter for two weeks.  
Mr. and Mrs. E. Campbell and Donald and Mr. and Mrs. J. Tweedie attended the Stouffville Skating Carnival on Saturday night.
