PROPOSED METROPOLITAN OFFICIAL PLAN

The Metropolitan Toronto Planning Board is considering the Proposed Metropolitan Official Plan to guide the future development of the Metropolitan Toronto Planning Area. The Plan will, in general, prescribe land use and population densities; the transportation facilities, regional parks and supporting services for which the Metropolitan Corporation is responsible; and the principles and policies to be observed in matters of Metropolitan concern, together with provision for the integration of detailed local municipal planning functions with these principles and policies.

Before adopting the Plan, the Metropolitan Toronto Planning Board will present the proposals to the residents of the Planning Area in a series of public meetings. The dates and locations of meetings are as follows. All meetings will convene at 8:00 p.m.

Date	Place	Municipality Affected
Wednesday, June 2nd	Richmond Hill High School 51 Wright Street, Richmond Hill	Township of Toronto Gore Village of Woodbridge Township of Vaughan Township of Richmond Hill Township of Markham Village of Markham Village of Stouffville
Monday, June 14th	Dunbarion High School, White Sideroad, Dunbarton, Ont.	Township of Pickering Village of Pickering Town of Ajax

Copies of the proposed plan are on display and may be examined at the following locations:

1. Toronto Gore Township Office, Ebenezer, Ontario.
2. Woodbridge Village Office, 54 Pine Street, Woodbridge, Ontario.
3. Vaughan Township Offices, 33 Richmond St., Maple, Ontario.
4. Richmond Hill Town Hall, 56 Yonge Street North, Richmond Hill, Ontario.
5. Markham Village Office, 207 Main Street, Markham, Ontario.
6. Markham Township Municipal Building, Buttonville, Ontario.
7. Stouffville Municipal Building, Stouffville, Ontario.
8. Pickering Township Office, Brougham, Ontario.
9. Pickering Village Office, 22 Sherwood Road West, Pickering, Ontario.
10. Ajax Town Hall, 12 Kings Crescent, Ajax, Ontario.

Written comments, addressed to the Board at its offices, 790 Bay Street, Toronto, are invited and will be received until July 31, 1965. Further information may be obtained by telephoning 365-6263.

C. J. Laurin  
Chairman  
Metropolitan Toronto Planning Board

4-H Achievement Day Held At Aurora

(By Austra Janitis, Home Economist for York Cty., Ont. Dept. of Agriculture)

May 15th brought to a conclusion the 4-H Homemaking Club project "Meal in the Menu." The Achievement Day was held at the Aurora District High School. One hundred and forty girls, leaders and friends participated in the days activities.

In the afternoon Mrs. C. Hooper, Women's Institute District President for York East presented Provincial Honors to: Louise Walker, Bogartown; Elaine Lockhart, Temperanceville; Dianne Maw and Joan Miller of South Vaughan. County Honors were presented by Mrs. Hooper to Hazel Matson and Dawna Stirling of Agincourt; Dayle Eves and Elizabeth Faris Bogartown; Diane Smith and Marilyn Toombs of Queensville; Brenda Kriby, Edgely; Sharon Cox and Ann Paxton of Temperanceville and Joyce Hoshel of Vandonr.

Experts Take Course To Save Dutch Elms

Pest control experts from across Canada met last week to learn how to use a new, highly toxic chemical to fight Dutch elm disease.

The chemical, Bidrin, is a preventive agent — not a cure. It is injected into the tree and kills the beetles that spread the fungus disease.

Shell Oil Ltd. developed Bidrin and insists that anybody using it must first pass a test because of the chemical's toxicity. The 140 persons attending the course spent six hours at the Ontario College of Education.

Dr. Dale Norris Jr. of the University of Wisconsin — a Dutch elm expert — said Bidrin can poison humans. But after it has been injected into a tree, he said, only tree parasites can be harmed — and possibly birds that eat poisoned insects.

"I do believe that it's more important to protect a 150-year-old elm tree than three robins,"

during the afternoon session. This Achievement Day concluded with Miss Austra Janitis, Home Economist for York County presenting the sterling silver teaspoons and Certificates of Achievement to all the 4-H Homemaking club members who had completed this project successfully.

Leaders and assistant leaders for this project were: Mrs. H. Beare, McCowan Rd., Mrs. M. Thilley, Brimley Road, Agincourt, Mrs. William Walker, Mrs. Neil Faris, R.R. Newmarket, Bogartown; Mrs. Anne Gooch, Downsview No. 1, Mrs. Joan Bagg, Woodbridge No. 2, Edgely; Mrs. W. McKendry, Mrs. V. Gordon, King City; Mrs. Forest Mactaggart and Miss Gail Mactaggart R. R. 1, Kleinburg, Nobletown; Mrs. Arnold Johnson and Mrs. Harry Toombs, Queensville; Mrs. R. Snider and Mrs. Joyce Snider, No. 3, King, Snowball club; Mrs. G. Foster, Nashville No. 1; Mrs. G. Wardlaw, Woodbridge No. 3, South Vaughan club; Mrs. Stella Wells and Miss Judy Paxton, No. 3, King, Temperanceville club and Mrs. B. Patenden, Stouffville No. 4 and Mrs. Betty van Nostrand, Gormley No. 1 of Vandonr club.

He said, "Trees are more valuable than birds."

Development of a new chemical weed-killer that works like a booby trap, and another new substance for fighting crabgrass was reported yesterday.

The two new weapons were described at the meeting of the American Chemical Society.

The booby-trapping, weed-killer was described this way:

The man-made chemical, called Cyprimid, contains a built-in "trap" that, in effect, pops open and reacts with vital constituents of certain agricultural weeds soon after they emerge above ground.

The booby-trap consists of a ring-formation of three carbon atoms — called a cyclopropyl group — which comes apart easily to give highly reactive chemical units called "free radicals."

"The theory is that the chemical kills weeds by interfering with the process by which the pesky plants utilize carbon dioxide and water for growth."

"Neighbours said the weed-killer — still experimental, but expected to be marketed — is especially designed for use against various forms of weeds and grasses that can bedevil corn fields."

The new addition to the anti-crabgrass arsenal, a complex form of the chemical methylcarbamate, is being made available this spring under a trade name Azak. The meeting was told it has several "advantages" for crabgrass control, including being economical; requiring only one application for a crabgrass germination season; and being practically non-toxic to warm-blooded animals.

Raspberry Growing

A few simple rules of care can help grow excellent raspberries, say horticulturists with the Ontario Department of Agriculture. First, be certain not to let your black or purple raspberries grow too tall. Black raspberries should be trimmed at a height of two to two and one-half feet while purple raspberries are trimmed at about two and one-half to three feet. This forces growth into the side shoots and helps to increase yields. It also prevents the canes from becoming too unmanageable.

Canes will reach the desired height at different times of the year. Therefore it is necessary to go over the plants several times and cut down the tall shoots. Note, red raspberries must not be trimmed or their yield will be reduced.

Retain the hedge or hills of plants by removing most of the suckers which extend beyond the desired area. Hedges should be limited to about 18 inches wide.

After harvest weeds may be controlled with several cultivations. If you wish, instead of cultivating, add a two-inch mulch of compost or peat moss or a four-inch mulch of straw.

ASHBURN

Mrs. Gordon Fisher, of Pickering, spent the weekend at her home here.

Mr. and Mrs. Nelson Ashton visited Miss Vera Prentice of Brookdale on Sunday.

Mrs. Ivan Crigger, of Dryden, Ont., was a recent visitor at the Hopkins' home.

Warrant Officer Wm. and Mrs. Sparks of Kingston spent the holiday weekend with Mrs. M. Sparks.

We welcome Mr. and Mrs. S. H. Emm, of High Wycombe, England to our community, at present they are living with their son and wife, Mr. and Mrs. Gerald Emm.

Mr. and Mrs. Edgar Heron spent three days last week in Ottawa when Mr. Heron attended the assessor's convention.

Miss Vera Leach spent last week end with Mr. and Mrs. Gordon English at Woodville.

The Active Service Group, of Mt. Zion, were entertained by the members of the Ladies Bible Class, on Wed. May 12th in the basement of the church.

The meeting opened with the scripture lesson, read by Mrs. W. Routley and prayer by Mrs. R. Batten. It was decided to pay for a boy or girl to attend the Bible Club Camp this summer.

Mrs. Donald Jamieson presided for the program — a reading "If the Halo fits," by Mrs. Fred Fiss; a vocal duet by Mrs. Elmer Wilson and Mrs. Grant Carson "The Touch of a Mother's Hand," Mrs. J. Empringham chose for her topic "Homemakers and Mothers," Mrs. Burnett-Jamieson told of the life of the well known hymn writer, Fanny Crosby.

The meeting closed with prayer by Rev. Buntain As this was our "Mothers' meeting, carnations were presented to the oldest mother — Mrs. M. Sparks; the youngest mother — Mrs. Fred Fiss and the mother present having the youngest baby — Mrs. M. Albright. A social time was enjoyed.
