

# Separated 43 Years Paisley Bros., Sisters, Hold Reunion Here

Forty-three years have elapsed since the three Paisley brothers and three sisters were together under the same roof at the same time.

That time span ended Saturday.

T. H. (Harry) Paisley of Main Street, welcomed his two brothers, Frank of Portland, Oregon, and Bert of White Rock, British Columbia, to his home last week.

Meanwhile, the sisters began congregating at the home of Mrs. Alonzo Allen, RR 3, Stouffville, She, and her two sisters, Mrs. Margaret Stokes, Toronto, and Mrs. Evelyn Adamson of Toronto, began preparations for the reunion party on Saturday.

Prior to the party, The Tribune talked to the three brothers.

With Portland and White Rock separated by only 325 miles and an International border, Frank and Bert have been in close contact. However, the jaunt to Stouffville is about 3,400 miles, and is not a trip that's made for the weekend.

Both Western families teamed up in one car for the five-day journey. They plan to stay in the area for a month.

All the brothers were born near Stouffville and attended Garibaldi School. Frank went west some forty-three years ago settled on the Prairies, found it too cold and ended up in Oregon. His intention, upon leaving Canada's wheatland, was to reside in California, but he took an immediate liking to Portland and stayed. He was in the automotive line before retiring.

Frank was in Stouffville 20 years ago, but Bert failed to make the trip. Returning this month, Frank said he has noticed a number of changes, but nothing too enormous.

"The pool and park weren't here," he recalled, "but Main Street looks pretty much the same."

While in town, Frank plans to renew old acquaintances. He said he has met a number of people he hasn't seen "in years."

Bert, 61, in his Western venture years ago, took up residence in White Rock, B.C. Located 30 miles from Vancouver, White Rock is a resort town. Bert is employed with the Water Works Department. He doesn't remember Stouffville as well as brother Frank.

"I wouldn't know where I was, if someone didn't tell me," he smiled. "But now that I'm here, I plan to relax and meet old friends."

Bert likes the west coast of Canada, stating that there's not really as much rain as people think. Being near the ocean, the climate is moderate.

Accompanying Bert on the

trip were his wife and two daughters, Florence, 36 and Margaret, 18. Frank's wife also joined him, but two sons, Gordon, of Portland and Melvin, of Seattle, stayed in Oregon.

Harry Came Back

The third brother, and host for the reunion, Harry also made the trip out west years ago. He wasn't as impressed as the other two and returned.

Harry, 65, went west forty years ago, and took up farming at Imperial, Saskatchewan. However, he didn't like it and returned to Stouffville. Following four years of farming here, he sold out and went into the trucking business. Thirty-five years later, he is still in it.

Harry has four sons and three daughters. Bert, Eugene, both of Stouffville, and Bruce of Mt. Albert are part of the trucking business. A fourth son, Earl is employed by Machine & Tool.

The three daughters are Mrs. Irma Sneddon, Stouffville; Mrs. Helen Clark, Unionville and Mrs. Erine Cummings of Toronto. Harry has 23 grandchildren, while Frank has seven.

Surprisingly enough to the drivers on the cross country trip, there were no complaints from the passengers regarding the duration of the venture.

However, all agreed the season for that was the beauty and magnitude of the country. Travelling the Trans-Canada Highway, the group covered five provinces. They said that the nicest area was the Canadian Prairie.

Frank and Bert are sold on the West, as the only place to live.

Said Frank, "the East is too crowded, and people are moving to the wide-open spaces of the West."

The reunion party held Saturday was termed a huge success, but we hope they don't wait another forty-three years before they do it again.

### RINGWOOD

You are invited to Sunday evening "drive-in" services in Stouffville Park, sponsored by Stouffville and Ringwood Christian Churches.

Recent visitors with Miss Priscilla Pipher and Mrs. De Rosier: Mr. Harvey Pipher with his sisters, Mr. and Mrs. George Harmon, Mrs. Grace Shudahl, Victoria, B.C. and Mrs. Allan Mallory and Maryella, Riverside Windsor, daughter of Mrs. De Rosier, Mr. Jim Waller and son Bob, of Victoria, B.C., Mr. and Mrs. Ross Pipher and sons, Mr. and Mrs. Offer and Mark, and Mr. and Mrs. Aida and boys called to see Mrs. Grace

### LEMONTVILLE

A warm welcome is extended to everyone to our Daily Vacation Bible School, to be from July 19-30 on our little White Church on the Hill. The hours 9:30-12 noon. Come, bring a friend and enjoy yourself.

Mr. and Mrs. Grant Wells and family are holidaying near Huntsville for a few days this week.

Miss Susie Hirsch spent a few days in the city with some friends last week.

For her birthday celebration Mrs. J. Nauta had as guests the Henry Nauta family and the Van Fleets from Stouffville on Thursday, Mr. and Mrs. Oldham from Scarborough, and Mr. and Mrs. Ed. Oldham from Dundas came on Sunday and had supper with the family.

Mrs. Crouch and Mrs. Reynolds motored to Seaford last Wednesday and returned on Thursday.

The U.C.W. meeting will be in Mrs. Crouch's home on Tuesday evening at 8 p.m.

The Bethesda Women's Institute are having their annual picnic on Wednesday at noon at Dr. and Mrs. Couch's home and grounds.

Rev. Ed and Elsie McCrea were in the community on Sunday evening and spent some time with the Henry Nauta family.

Mrs. Robert Nelson from Brampton visited with Mrs. C. Hood last week. Mr. Clarion Hood spent the weekend at Hawk Lake.

Mr. Peter Danielis from Udine, Italy, is enjoying a holiday with his son Albert Danielis and his family.

Mr. and Mrs. Roy Thompson and family from Streetsville visited with the Jim Rae family over the weekend, also Mrs. William Beach from Aurora. Colleen Beach spent a few days last week with Karin Rae. Mrs. Evelyn Rae attended a shower on Saturday evening in honor of Carol Harrison of Mount Albert.

The students of the Sunday School were presented with attendance pins last Sunday morning and a remarkable number of youngsters have an A-1 record.

Jill Turner is spending a few days with the Ray Turner family in Scarborough, while Glenn Turner has a holiday in the country with the Merv Turner family.

Rev. and Mrs. Inglis motored to Mount Bridges on Saturday, where Rev. Inglis took the place of Rev. McCrea on Sunday. Monday they enjoyed a pleasant day in Strathroy.

berger with a grocery shower. The Honsbergers are living on Mill St., in Stouffville.

The next W.M.S. meet is to be held at the home of Mrs. Walsh on August 12th.

### W.M.S. PICNIC MEETING

The Stouffville United Missionary W.M.S. held their annual picnic supper on Thursday evening on the lawn at the home of Mrs. Walter Gray, Lemontville. With forty ladies in attendance a delightful pot luck meal was enjoyed by all.

Following the supper the regular devotional meeting convened, with the president, Mrs. Lloyd Wideman in charge. Mrs. Walsh gave the opening prayer followed by prayer by Mrs. Rusnell and Miss Mabel Hoover. Mrs. Harry Stover read a Home Mission news letter from Rev. Ed. Chester, pastor of the new Home Mission Church at Brampton. Mrs. Lambert Stouffer spoke briefly, giving some information pertaining to the projects of Operation Missions.

The program committee took charge, and Mrs. Carl Reesor read the scripture from Psalm 96. The message of the evening was given by Mrs. Earl Honsberger, who along with her husband, have recently returned from Nigeria on furlough.

Two special numbers in song were given by Mrs. Andrew Hutchinson and Mrs. Ken Bacon. Mrs. Ed. Herbert closed the meeting with prayer.

Following the program, the ladies presented Mrs. Hons-

### Laff Of The Week

"And if we ever want to put it back in its original mounting, it's good for 10,000 plays."

# The Gardener's Corner

## Proper Window Box Care Pays Good Dividends

## Sharp Hoe Best Yet For Garden Weed Control

Window boxes, patio planters and hanging baskets add greatly to garden and home beauty, if they are well cared for. Horticulturists with the Ontario Department of Agriculture offer these suggestions to help with their care.

Proper watering is one of the most important factors to keep in mind. Most plant containers tend to dry out very quickly in hot summer weather, so check them daily. Water them when the soil begins to get dry, and give enough so that the whole ball of soil is wet. Do not water until they begin to get dry again. They must not be kept in a saturated condition. Also, make sure that excess water can drain out of the bottom of the containers. Plants that have wilted recover slowly, and if it happens very often the plants will give a poor show of bloom.

Keep all old bloom pinched off; this prevents seed production. At the time, it may seem like a lot of work but the benefits of increased bloom and longer season are well worth the effort.

Don't allow soil to become packed and baked. Adding a one-inch layer of peat will help to conserve moisture.

If plants should become leggy, pinch them back. This will make them bush out, and will give a much neater appearance in the long run.

As a last note, feed your plants occasionally with a balanced fertilizer. Soluble forms are most suitable as they can be applied at time of watering.

Horticulturists with the Ontario Department of Agriculture say that as yet there are no chemical weed killers which have proven effective for general use in all flower beds. The best method is still a good, sharp hoe.

Annual weeds are best controlled by hoeing before they reach one inch in height. This will require going over the beds frequently, but it is time well spent. When annual weeds become too big, they may require hand weeding, a very slow job.

Perennial weeds are much more difficult to handle. They require digging out because any roots left in the ground may produce a new plant, as with twitch grass. When the roots of perennial plants are invaded by weeds, the only practical method is to dig and divide them so that all weed roots are removed. This is usually done best in spring or fall.

Keeping the soil surface covered with a one-to-two-inch layer of mulch will reduce weed germination. Peat moss is good and gives the garden a neat appearance. Sawdust may be used as a mulch but extra nitrogen must be applied to make up for the nitrogen used in breaking down the sawdust. Compost or leaf mold are good mulching materials, but be sure they are weed free.

Chemical weed killers may be used on beds devoted to annuals only. Vapam or Vorlex, which kill all growing plants and weed seeds, are applied well before planting time. Manufacturer's directions must be followed carefully for effective control.

## Garden Slug Control With Traps and Bait

The slug is one of the commonest and most destructive garden pests. This pest is at its worst in cold, wet weather, but is very hardy and can withstand long, hot, dry periods. Nothing is more disappointing than seeing your plants reduced to shreds in a few hours.

Slugs will attack almost any type of garden plant and their signs are not hard to spot, note entomologists with the Ontario Department of Agriculture. They suggest looking for silvery trails along the ground and tattered leaves.

Here are a few tips for effective control. Sanitation can be a major factor. In slug control as they hide under all types of rubbish during the day. Be sure to rid the garden of any debris as well as weed beds and brush piles. Here is a way to set traps for this pest. Place a six-inch square of moist bark near the area to be protected. This will attract any slugs in the area and it should be checked each morning. Remove any that are found and kill them.

Baits are a particularly effective means of controlling this pest. Commercial metaldehyde baits are applied just before dusk in small piles the size of a fifty-cent piece near the plants to be protected. Metaldehyde dust may also be available.

Copper-lime dusts repel and may kill slugs. This method, however, has not been as effective as the metaldehyde baits.

As a last thought—collars of wire screening placed around plants offer protection when used on a small scale.

## ADDITIONAL LOCALS

### PINE ORCHARD

Mr. and Mrs. Bill Renaud have purchased a new home north of Musselman's Lake. A former employee at The Tribune, Bill is now working at the Globe and Mail in Toronto.

Mr. and Mrs. Clarence Fockler and family of Ringwood have returned from a holiday at Hall's Lake. Visiting them on the past weekend were Mr. and Mrs. Sidney Pullen and family of Don Mills Road.

About sixty friends and relatives gathered at the home of Mr. and Mrs. Rodney Bond, 38-9th Line N. to celebrate the 25th anniversary of Mr. and Mrs. Ernie Pilkey. Friends were present from Locust Hill, Claremont, Newmarket, Belhaven, Elk Lake, Englehart, Fort Perry, Toronto and Stouffville.

Stouffville council, at a special meeting last week, accepted the resignation of Constable Edward Grimshaw, a member of the town police force for two years.

Mrs. Edith Lundy spent Sunday with her sister, Mrs. Lottie Baker of Stouffville.

Mr. and Mrs. Jack Sproton and girls of Ottawa have been holidaying with his mother, Mrs. George Sproton.

Miss Doris Gibney of Toronto spent the weekend with her cousin Miss Helen Reid and attended Decoration Service at Mount Albert, Sunday evening.

Mr. and Mrs. Dan White of Meaford spent a couple of days at the Rae McClure home.

Mrs. J. Woodhouse and children of Royal Oak, Mich., visited former friends and neighbours last week.

Mr. and Mrs. Harry Brammer were Sunday guests with Mr. and Mrs. Cliff Wagg, Stouffville.

Mr. and Mrs. Middleton and family were weekend visitors with her parents, Mr. and Mrs. J. Sytama.

Even when you get rid of excess weight, you seldom can put it beyond the point of no return.

## MARMILL LAYING RATIONS

### THE BEST IN FEED

FOR THE PROFIT-MINDED POULTRYMAN

Manufactured from the highest quality ingredients to promote high production over a long laying period.

Use Marmill Complete Feeds:

- 16% Laying Crums
- 16% Caged Laying Crums
- 17% High Energy Egg Mash

Or if Grain Is To Be Fed Use:

- 18% Laying Mash
- 20% Excello Laying Mash
- 20% High Energy Laying Mash
- 35% Poultry Concentrate
- 40% Poultry Concentrate

Most Feed Available in Mash, Pellets or Crumbles. All available in Bulk Lots of 3 Tons or More.
