British Scholarship Available To Farmers

Each year since 1951, two young Canadian farmers have travelled to Great Britain under the auspices of the Nuffield Foundation for a six month tour of farms in the British Isles.

For the past three years, the trip has been won by an applicant from Ontario. This is an enviable record and speaks well for the calibre of Ontario farm people. One applicant is chosen from Eastern Canada and one from the West.

Applications for the Nuffield Travelling Scholarship will be considered from men or women between the ages of 30 and 35 years. They must be actively engaged in farming and have the intention of making farming their life's work.

Interested parties should contact the Information Department of the Ontario Federation of Agriculture immediately for further details and application forms. Entries close early in October.

This is an excellent opportunity for a farm person to gain valuable experience.

Applications will be received only through the Ontario Federation of Agriculture.

Lindsay on Thursday.

Mr. and Mrs. David Boynton (Jeanette Hoover) have returned home after spending their honeymoon the past three weeks in Europe. They are now making their home in an apartment at Cooksville.

Mrs. F. Walker has returned home after spending the past 2 weeks with friends at Fort Erie.

TEACHER TRAINING ENROLMENT UP BY 20 PERCENT

There will be a sharp increase in the number of elementary school teachers available for work in Ontario Schools in 1966.

In making the announcement, the Honourable William G. Davis, Minister of Education, noted that figures from Principals of Teachers' Colleges indicate a substantial increase this year in the number of Grade 13 students enrolling in the one-year course. Approximately 4,650 students have enrolled in this course in 1965. This represents a 20 percent increase over the 1964 figure of 3,868. Included in this group are 92 students with university degrees taking experimental courses offered for the first time this year - 74 at the Toronto Teachers' College and 18 at the London Teachers' College.

A total of 301 students enrolled in the One-year Second Class course at the Sudbury and Ottawa Teachers' Colleges, which indicates a slight increase over the 1964 figure.

An enrolment of 38 in the Primary School Specialist Certificate Course at the Toronto Teachers' College is the same as in 1964.

The Teacher Education Branch of the Department of Education reports that the total number of new teachers for elementary schools should increase to 5,500 in 1966. There were 4,700 new elementary school teachers in 1964.
