**WITHOUT Removing THE OLD FINISH**

Anything that can be painted can be changed to take on the appearance of rich wood grain, of aged antique or beautiful marble. The process is so simple a child could do it. Yet the realism you can achieve with Old Masters will amaze and delight you. The grand part about achieving these effects is that you don't have to remove the old finish. This means no scraping, no bleaching, no staining, and no special tools are required to obtain any of these effects. Any piece of furniture that doesn't fit its surroundings or woodwork that doesn't fit the decor can be easily changed to complement its setting. The oddest assortment of furniture and finishes can be made to look as though they belonged to each other. Regardless of how dark or light the item is, Old Masters can completely change its appearance without removing the old finish. See how. See it demonstrated. And see how little it costs to make these amazing changes.
