Move Is Widespread To Clean Up Old Graveyards

The move to clean up dozens of old Ontario graveyards, many in this district, has been gaining momentum in the last couple of years. In many instances the old stones are broken, defaced and the entire plot has become a shambles. To clean up the cemetery and still maintain the history of the sacred acre, headstones in many places are being gathered together and set in a cairn. The idea is most commendable. Some time ago St. Andrew's United Church, Markham, found it necessary to remove old stones to such a cairn in the cemetery on No. 7 highway. As the stones in the old part of Stouffville Cemetery deteriorate it may be necessary to gather them together on a more solid base. Pictured here is the work being done at the old Methodist graveyard in Pickering Village, where old stones had become so uneven that they were an eyesore.

## Burning Rectal Itch Relieved In Minutes

Exclusive Healing Substance Relieves Pain As It Shrinks Hemorrhoids.

If you want satisfactory relief from "Itching Piles"—here's good news. A renowned research laboratory has found a unique healing substance that promptly relieves the burning itch and pain—actually shrinks hemorrhoids. This substance has been shown to produce a most effective rate of healing. Its germ-killing properties also help prevent infection.

In case after case "very striking improvement" was noted, even among cases of long standing. And this improvement was maintained over a period of months!

This was accomplished by a new healing substance (Bio-Dyne)—which quickly helps heal injured cells and stimulate growth of new tissue. Now Bio-Dyne is offered in ointment and suppository form called Preparation "H". Ask for it at all drug stores—satisfaction or money refunded.
