## AMBULANCE PROFIT \$1,229

STOUFFVILLE — The total profit on a single year's operation of the Vance ambulance service, amounted to \$1,229 members of Stouffville Council were told on Thursday night. This figure must then be divided between 2 partners in the firm. They are asking for a \$600 subsidy from Stouffville and \$1,200 from Markham Township. Stouffville's offer of \$445 was rejected and the cheque was returned. Markham Village has already paid their \$600, the full amount that was requested.

Dep.-Reeve Bill Parsons suggested that the subsidy should be based on numbers of calls or population served. He admitted that since the vehicles were based in Markham, extra mileage was involved but he didn't feel this should be a factor in establishing a subsidy rate. He said

that he could only assume that Markham, with a higher population, would be more needful of the service.

**NURSING HOMES**  
 Mr. Vance said that Stouffville had a hospital and a number of nursing homes that resulted in increased numbers of calls. He said that both ambulances were radio-equipped with the base station located in his home. He said that patients in Stouffville were charged no more than those from Markham, on a trip to the Scarboro General Hospital.

"It's a service we require," said councillor Bob Lewis.

Mr. Parsons said he had heard no complaints but rather the operators had been commended on numerous occasions.

It was recommended that the rate be increased

to \$500. Mr. Vance agreed to discuss the settlement with his partner and notify the Clerk of their decision.

## \$500 Lot Fee Abolished In Split Council Vote

BROUGHAM — A resolution to abolish the \$500 lot development fee in the Township of Pickering was approved on a split 4 to 3 vote of council, Tuesday night.

Councillor Harvey Spang, who introduced the motion, said he doubted the legality of the levy and claimed it represented a hardship on a resident who wished to split a building lot from a larger parcel of land. He was supported by councillor Nor-

man Waller who admitted that he had recently been charged the \$500 figure.

Reeve C. W. Laycox considered the fee a benefit to the municipality and suggested that it should be increased to \$600.
