### Just in Jest

During a violent winter snowstorm, a Red Cross rescue team was carried by helicopter to within a mile of a mountain cabin all but covered by deep snowdrifts.

The rescuers struggled on foot through the deep drifts and finally arrived at the cabin, where they shoveled away enough snow to clear the door. They knocked and when their summons was answered by a mountaineer, one rescuer stepped up and said, "We're from the Red Cross."

"Well," said the mountain man, scratching his head, "It's been a right tough winter, and I don't see how we can give anything this year."

**"CO-OP 36% Dairy Concentrate helped make my 1965 herd BCA highest in Lambton County!"**

Ken Anderson, Ken Anderson & Sons, Mooregreen Farms, Mooretown, Ont.

Many of the top producers responded equally well. Mooregreen Lena Citation, for example, showed a fine 7% increase in milk production to 20,495 lbs.

In addition to the remarkable milk increases, Ken and Don noted a big improvement in the rate of conception. An increase they attribute to the high Vitamin A content of 36% concentrate.

Ken and Don Anderson have been breeding and raising Holsteins for twenty years. On their 700 acre farm, they raise 112 head of cattle, 120 acres of hay, 40 acres of corn ensilage, 80 acres of grain corn, 80 acres of oats, and 50 acres of winter wheat.

Mooregreen Farms buy all their feed, petroleum products and hardware from their local co-operative.

Results were exceptional. The Mooregreen Herd topped all others in Lambton County for BCA average.
