Insure your winter wheat now!

If you are seeding winter wheat, you cannot afford to be without the low-cost, comprehensive protection offered by The Crop Insurance Commission of Ontario. Apply for coverage by September 15th.

Guarantee 60, 70 or 80% of your normal yields

The insurance coverage is a guarantee of production. You decide the amount of coverage you want—60, 70 or 80% of your normal yield—and if your yield is below the guaranteed level—the insurance makes up the difference.

Comprehensive coverage at less than cost

Administration costs for this program are shared by the Federal and Ontario Governments, and subsidies cover 30% of the premium, so you can purchase this valuable protection at considerably less than cost. Coverage includes hazards of Hail, Wind, Flood, Frost, Winter Kill, Drought, Excessive Moisture, Excessive Rainfall, Insect Infestation, and Plant Disease.

\$15 deposit secures contract—now

If you are sowing, or plan to sow winter wheat, act now to get protection—time is limited. Secure a contract immediately by making application with a \$15 deposit—the balance of your premium will not be due until you have completed seeding.

September 15th deadline

Applications for insurance on winter wheat must be made by September 15th. Contact your nearest Agent for complete details and application forms—or write direct to:
