

Uxbridge Township

Favors Crossing Lights At County Expense

GOODWOOD — The council of the Township of Uxbridge is in favor of erecting automatic signal lights at a level crossing on County Road 1A in Goodwood, but is opposed to paying any portion of the cost.

Members discussed the issue briefly at the inaugural meeting, Jan. 8, after correspondence on the project was received from the Board of Transport.

It was at this location June 29, that an eastbound gravel truck rammied into the side of a northbound C.N.R. passenger train en route to Haliburton. The truck driver was admitted to hospital but none of the 350 children on board was injured.

Clerk Elwood Foskett was advised by the members to inform the Department of their decision and to forward all future correspondence on the subject direct to the Clerk of Ontario County, Whitby.

Five committees were set up with the reeve and all members to comprise the committee for Roads and Bridges. The Chairman of others are: Finance, deputy-reeve Robert Nesbitt; Welfare, councillor Frank Hendy; Property, councillor Clark Muirhead; Printing, councillor Grant Drewery.

Councillor Muirhead and Mrs. Muriel Nesbitt were named to the Uxbridge Cottage, Hospital Board. Deputy-Reeve Nesbitt and councillor Muirhead will represent Uxbridge Township on the Fire Tanker Committee.

Councillors Frank Hendy and Grant Drewery were appointed to the Goodwood Park Board. Deputy-Reeve Nesbitt was returned to the Metropolitan Toronto and Regional Conservation Authority. His work on this Board was praised by Councillor Drewery.

Request Licence
Mr. and Mrs. H. Van Bell appeared before Council to request a two-year renewal of their licence to operate Goodwood Kartways, concession 2. Their present licence does not expire until May 1. Members agreed to discuss the matter further and present a decision, Feb. 12.

This crossing site on County Road 1A at Goodwood, is not protected by automatic signals. Uxbridge Township Council is agreeable to the installation of lights but the members feel that Ontario County should pay the full cost. — Staff Photo

Announce New
Healing Substance
Shrink Piles

Extensive healing substance proven to shrink hemorrhoids and repair damaged tissue.
A renowned research institute has found a unique healing substance with the ability to shrink hemorrhoids painlessly. It relieves itching and discomfort in minutes and speeds up healing of the injured, inflamed tissue.
In case after case, while gently relieving pain, actual reduction (shrinkage) took place.
Most important of all — results were so thorough that this improvement was maintained over a period of many months.
This was accomplished with a new healing substance (Bio-Dyne) which quickly helps heal injured cells and stimulates growth of new tissue.
Now Bio-Dyne is offered in ointment and suppository form called money refunded.

In Hospital

By MAY BROWN
GREENWOOD — Mr. Fred Byers was taken by ambulance to Oshawa General Hospital Jan. 6. His many friends wish him a speedy recovery. Mrs. Hazel Wilson of Stouffville spent a few days last week with Mrs. Byers.

We are pleased to report that Mrs. Jack Brooks is steadily improving following her recent illness. The sympathy of the community is extended to Mr. and Mrs. R. G. Conant and sons Allen and Armand, in the passing of Mrs. Conant's mother, Mrs. J. P. Allen.

Jester — Part of the song, "Jester Song at Twilight."

Elect Officers

By LILLIAN JAMIESON
BALSAM-MT. ZION — The Men's Club held its re-organization meeting recently and officers for 1968 were elected. They are: President, Murray Jones; Vice President, Grant Jones; Secretary, Donald Jamieson; Pianist, Rev. T. H. Fleetham. Winners of the crokin-

Is The Public Interested In Safety?
If they are, you certainly couldn't prove it with seat belt surveys.
The latest nationwide tally of the percentage of seat belt users to all drivers shows a steady decline; despite the fact that belts are now compulsory in all new cars.
Of more than one million cars checked by the National Highway Safety Committee, 65 percent of the cars were equipped with belts. Of these, 38 percent always used their belts in local travel and 55 percent always used them on long trips.
Both percentages are down 5 percent from last year and drivers stating they "never wear" their belts nearly doubled this year over last.
The committee stated that of 250 fatalities, 100 would have survived if they had been wearing seat belts and 130 if they had worn lap and shoulder combinations.
The irony of this is that many of the new and costly safety innovations in cars this year are designed to cushion the force of a collision by having the front end of the car collapse gradually. But the driver's body continues to travel at the speed of the collision right into the windshield unless restrained by a belt. So the value of a collapsing front end on the car is largely cancelled.
This collision at 30 MPH is equal to diving out of a three-story window, at 50 MPH to an 8 1/2 story building and an 80 MPH crash is equivalent to a 20 1/2 story dive.
