Raceway

The \$1 million plan to create a world-class motor car raceway in southern Ontario is moving toward its hoped-for stamp of approval from Metro Toronto council.
 And if Metro authorities give their go-ahead — the decision is expected in the next couple of weeks — this region will be well on its way to overcoming the setback of having lost its bid for the 1976 Olympics.
 In many respects, the proposed Lakeshore Raceway at the Canadian National Exhibition grounds will bring Ontario more world sports prominence than would the Olympics.
 For instead of a one-shot affair, the Raceway will annually host two major international races. By running them over a road course at the CNE waterfront, the excitement and glamor of Grand Prix racing will be within reach of the average citizen.
 Plans call for The Telegram Trophy Race to be run over the 2.3 mile course next June 15, and the Grand Prix of Canada on Sept. 21, 1969.

Clearing! Safety '99' High Traction or 'Hiway-Byway'

Since 1922 Canadian Tire has, time and time again, been the first to bring to Canadian motorists, at realistically low price, the very newest in material and tire design.

Even now we introduce glass-belted, 2D Polyester Cord Tires. The most revolutionary ever conceived by automobile and tire... manufacturers. So good a tire; it will eventually replace all others.

Hence, looking into the future, we're concerned about a rather large tire inventory and manufacturer commitment of all Nylon and Polyester (non-glass belted) tires. So here they are offered at low, low prices for quick disposal... first come, first served.
