

Road blocked

PICKERING TWP. — Pickering Council has tabled a resolution to move barns from the Parkin estate at Kinsale to the museum grounds until they have an exact statement of how it is going to be done.

They don't wish to accept liability for the move.

Reeve John Williams said that he was disturbed about the moving of the Whitevale Masonic Hall and the fact that it had to remain on the Altona Road overnight.

"Oh well," said council-

lor Arthur King. "they probably left the doors open."

A change in the weather made it impossible to move the building across the softened fields and it remains at the edge of the road until further movement is possible.

The reeve said that putting it mildly, engineer Poul Poulsson was upset about the blockage of the road.

Noise proves nothing: often a hen who has merely laid an egg cackles as if she had laid an asteroid.

The Unionville Figure Skating Club Carnival, April 18, 19 and 20 will feature as part of its program, the on-ice version of 'Snow White and the Seven Dwarfs'. The lead role is played by Debbi Jones and Michael Bradley, Canadian Novice Pairs Champions of 1968. —Staff Photo

WHAT CAUSES ACCIDENTS?

The latest report of the Travelers Insurance Company on highway accidents involving personal injury in the United States points an accusing finger at motorists who break the traffic laws.

Over 80 percent of all accidents occurred in clear weather on dry pavements, 15 percent on wet pavements and five percent in fog, snow or ice.

While weather conditions were largely ideal, 39% of drivers exceeded the speed limit; 15.4% were driving recklessly; 14.3% failed to concede the right of way; 13.1% drove on the wrong side of the road and 13.2% drove off the roadway. Two percent of drivers were guilty of passing on the wrong side and 3% of cutting in and passing on a curve or hill.

The worst day for accidents was Saturday with Friday and Sunday next in that order. The safest day of the week was Tuesday.

The hour between 5:00 and 6:00 p.m. was the worst hour for accidents. The next worst was between 4:00 and 5:00 p.m. and the best hour 6:00 to 7:00 a.m. Twenty-five percent of the deaths and 28% of the injuries occurred between the hours of 4:00 and 8:00 p.m.

The largest percentage of deaths and injuries occurred in the age bracket from 20 to 35 years and of the total of 52,200 killed in the year, 9,500 were pedestrians.

Careful driving obviously means carefully observing the traffic laws.
