Quiet, quiet, quiet!

So kind to feet

Gemini types rush around a lot... they're into everything from charities to art... kids to music... theatre to gadgetry. But they yearn for beautiful surroundings, gracious living and luxurious comfort too. So they need to save time and energy. Right? Right!

A kitchen carpet only *feels* like luxury... actually it saves time and money. There's no more waxing and polishing — just the whisk of a vacuum. Spills mop right up... plates don't break... toddlers don't bruise. But best of all is the quiet... the coziness... it's like discovering a whole new room for family living. All for the low, low cost of this soft textured all-purpose carpet.
