English Jr. Farmer

Guest in Uxbridge Twp.

UXBRIDGE TWP.—Michael Spooner, from North Stoke, 21 Spinfield Lane, Marlow, Buckinghamshire, England will arrive at Toronto International Airport, April 22, along with seven other young farmer delegates from England, Wales, Scotland and Northern Ireland. This is an exchange delegation with the Junior Farmers Association of Ontario. Four Junior Farmers from the Province of Ontario will leave for the British Isles in May for an 11-week visit.

Michael Spooner is 23 years of age and has been a member of the Henley Young Farmers Club for 4½ years. He is a past president of that club. Michael has spent one year at Agricultural College and is now working at the Grassland Research Institute at Harlow.

While in Ontario County from April 23 to May 1, Michael will stay at the farm of Mr. and Mrs. Morley Parish and family, R.R. 3, Uxbridge. While in Ontario County, Michael will be attending a few Junior Farmer events as well as getting his first look at Canadian Agriculture.

At the conclusion of his visit in Ontario County, Michael will travel to a Provincial Junior Farmer-Directors' Meeting at Geneva Park, with Ontario County Provincial Director, Ron Parish.

Michael will be entertained by Junior Farmers in a number of Counties during his visit to Ontario. The Young Farmers from Britain set sail for home, August 4.

Home garden contest

YORK CTY.—If you're proud of your garden why not enter the York County and District Real Estate Board's second annual home garden contest? Contestants must be residents of York County north of Steele's Avenue. Free entry forms may be picked up at your local Realtor, garden centre, or horticultural society. Although judging will not be done until September, entries must be post-marked not later than June 30.

First prize is an oil painting by Langley Donges, O.I.P. Suitably engraved stainless steel garden spades will be awarded the three runners-up.

Late Moff. Cockburn

Promoted farm programs

A.A. Wall,
Agricultural Representative for York County.

STOUFFVILLE—Pres. Mar. Fond R. Reflection Belle, purebred Holstein cow in the herd of Jacob H. Grove, R.R. 4, Stouffville, has been awarded a Superior Production certificate by the Holstein-Friesian Association of Canada.

As a six-year old in 365 days on twice-a-day milking, Belle produced 24,857 lbs. milk containing 1,000 lbs. fat, average test 4.02 percent butterfat.

The edge is off it this week however, for us in the office at Newmarket with the passing of Moff. Cockburn. Moff set the pattern for many farm programs in York, with many of them still going strong.

He had an important role in the progress of many

farm developments in this county. A few of the major ones were the great Junior Farmer clubs of the thirties and forties, the start of the Maple Cattle Breeders, the developments of the vegetable industry on the Holland Marsh, rehabilitation after the disaster of Hurricane Hazel, the Crop Improvement Association, the Junior Plow Teams, the fall fairs, the breed organizations, and I could go on and on.

Enthusiasm and a genius for getting things organized were behind all of these achievements. Moff. will be remembered for a very long time.

Mrs. Reesor of Markham had the most

mourning doves mentioned, her flock numbered 15.

By far the rarest bird to turn up in Pickering Township was a varied thrush. The Rocky Mountain bird was first seen by Mr. and Mrs. Lowndes at their home south of Claremont in December. On February 12, we spotted a second thrush at the Bowden home, 3 miles to the east. Both birds were males. The second was a more mature bird, and unlike the first, came readily to a feeder. Why these birds travelled 2000 miles to spend the winter here has got the experts guessing.

With the winter season officially over we will now be checking spring migrants as they arrive. Already we have seen robins, killdeer, meadowlarks, grackles, redwing blackbirds, tree swallows, brown thrashers and sapsuckers, but these are only a few of the many yet to come.

Leaskdale reported that crossbills, siskins, cardinals and a red breasted nuthatch made her feeding station the focal point of her home. Mrs. Adams also has a pileated woodpecker about her property.

Mr. and Mrs. Andrew Williams and Mr. and Mrs. Fred Williams who live on Rose Avenue in Stouffville informed us that they have enjoyed feeding the goldfinches, chickadees, woodpeckers, redpolls and grosbeaks that come to their garden feeder.

An unexpected but welcomed visitor in the area during the past winter was the red-breasted nuthatch. One is shown here on a suet log at the home of Mr. and Mrs. P.H. Currie, Claremont, R.R. 2.

Betty Pegg

Feeder attracted winter birds
