Spring wedding

By Jane Schweichert
MUSSELMAN'S LAKE — St. Brigid's Church, Toronto, was the scene of a pretty wedding, May 2 when Miss Dee Trenholm, daughter of Mr. and Mrs. Ralston Trenholm, Ninth Line North became the bride of Mr. Kenneth Bundy. Dee looked lovely in a short white lace dress, white headpiece and white nylon coat. Her bouquet included white Shasta daisies and Baby's breath. Miss Ruth Trenholm, sister of the bride, was maid of honor, wearing a pale mauve dress trimmed with white. She carried pale orange sweetheart roses and blue hyacinths. The best man was Mr. Robert Bundy, brother of the groom. A younger brother, Larry, was alter boy. The reception was held at the home of the bride's parents, attended by forty family relatives, friends and neighbors. The happy couple will reside in the community.

No application to OWRC
UXBRIDGE TWP. — In reply to a news item in The Tribune issue of April 30, promoters of the 'Century City' project wish to clarify their position with regard to sewage disposal from the site. No formal application has been made to the Ontario Water Resources Commission with regard to a plant south of Altona on Duffin Creek, explained Lou Devor of D.M. Consultants Limited. The reply from O.W.R.C. to Pickering Twp. Council was merely a statement of policy related to all upstream sewage systems. Mr. Devor concluded.

Markham Town — Pickering Twp.

Urban centres under region scheme

MARKHAM — The Town of Markham, on the northern fringe of the Township of Pickering will become centres of urban development under the provincial government's new region development scheme, announced May 5. These areas lie within a structured zone stretching along the shore of Lake Ontario from Bowmanville to Hamilton, to be developed, with a population of 5.7 million, by the year 2000, as conceived in the report 'A

Toronto Centred Region. Markham, on the northern fringe of the intensely developed portion, will become a sub-regional centre, with a population of 20,000. The south portion of Pickering is slated for more extensive development, to be implemented after 1980. Three major communities will be established in the township, having a combined population reaching 100,000.

Local centres at Audley and Cedarwood (located at the intersection of the boundaries of Metro and Pickering) will have ultimate populations of 20,000 each. Between them, a sub-regional centre, Brock, will have a population of 50,000. Population centres will be separated by Parkway strips, containing open space, transportation and utility facilities. The report stresses the

need to keep large centres of population near the lake shore to facilitate water supply and sewage disposal. A fisherman was caught with 15 more black bass than the law allowed and was taken to court and fined. "Do you have anything to say?" asked the judge. "Yes, your honor," smiled the fisherman. "I would like six copies of the court record to show my friends."
