What's new? You won't hear that question bandied about too often in a Volkswagen showroom. People have come to think that a Volkswagen is a Volkswagen. Which is a pity. Because over the past 3 years, we've made over 75 improvements. To the engine. Suspension. Interior. Behind it all is our old-fashioned notion that it makes a lot more sense to work on the way a car works every year, than to play around with the way it looks. So we devote our time to making parts that were good, better, things that were near perfect, perfect. And that's the reason we don't have a lot of big, fantastic changes to shout about every year. No news is good news. VW logo
