Ontario. Is there any place you'd rather be?

Ontarians are the kind of people who wouldn't be here if there was any place better. We are people who came from a hundred lands and stayed to build. People with backbone and brawn and a hunger to succeed. Men and women who've created a standard of living in decades that other lands worked centuries to build. If we have a flaw it's our chronic modesty. Ontarians may be proud to be Ontarians and Canadians... they just seldom tell anyone. From an economic point of view that's wrong. The more people we have boosting Ontario and Canada the better it is. And we've got a lot to boast with. At a time when the dollar is having many demands made on it, Ontarians can note that provincial taxes have held the line in 1970. And

we had a surplus to boot. Yet, needed programs have not been neglected. The Ontario Housing Corporation for example, has housed 120,000 people to date and currently has almost a billion dollars worth of programs active in nearly 200 Ontario Communities. We need a vigorous economy of course, to support these important programs. And, that's where you come in: Though our productivity has doubled in ten years and our incomes in twelve, Ontarians don't sit on their successes. There's a demanding decade ahead full of challenges and opportunities to make the quality of our lives better yet. To meet these challenges we've got to believe in ourselves. Which, when you think about it, isn't such a bad idea.

Everytime you boost Ontario... Ontario and Canada get a little stronger.
 Government of Ontario John Robarts, Prime Minister.
