

Volkswagen announces a limited-edition Volkswagen.

The Sports Bug

Bet you thought we'd never do it. Well, catch this: Oversize radial tires. Mounted on snazzy mag-type wheels. Indy-type steering wheel. Covered in simulated leather over thick padding. True sports bucket seats. With contoured vinyl sides and no-slip fabric. To hold you comfortably while cornering. Short-throw synchro stick shift. The faster you shift, the faster it shifts. Spirited air-cooled engine. Cast with lightweight aluminum-magnesium alloy. Just like in Super Vee racing engines. Four-wheel independent suspension. McPherson design coil/shock combo up front. Double-jointed rear axle with independent trailing arms in back. Special high-gloss paint job. In saturn yellow or marathon silver metallic. Jet black trimming. Options? All kinds. Like racing stripes.

Flore-tip pipes. Stereo radio. And more. If this sounds like what you've been waiting for from us. Wait no more. We built only a limited number of our special-edition Sports Bug. After all, we can't make too much of a good thing.
