

GARDENING

Teach your lawn to love you...
mow often but not too close

Mow bluegrass and fescue lawns short and you will have a thin, shallow-rooted turf that needs to be watered every day.

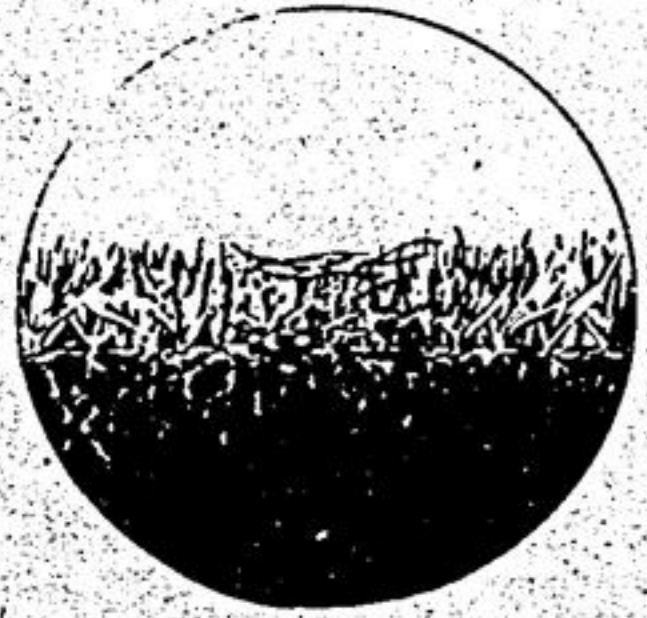

Most grasses grow roots only when the soil is cool. Mowing the lawn short lets sunheat warm the soil too much.

Heavy mowers squash soil, squeeze out the air that grass roots need to survive. Result is thin, weakened lawn.

Mowing restores freshness to lawn by removing worn tips. Dull mower frays tips, lawn takes on dull, brownish cast.

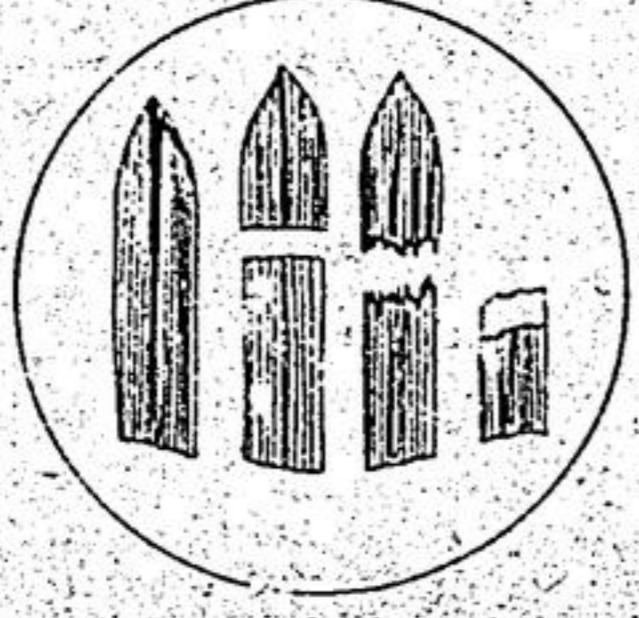

Chemical growth retardants stunt the grass but not the weeds — which take advantage of now-weakened grass.

The only time clippings MUST be picked up is when they are heavy and wet, as they would smother the grass and kill the roots.

Heavy mowers squash soil, squeeze out the air that grass roots need to survive. Result is thin, weakened lawn.

Mowing restores freshness to lawn by removing worn tips. Dull mower frays tips, lawn takes on dull, brownish cast.

Chemical growth retardants stunt the grass but not the weeds — which take advantage of now-weakened grass.

MOWING

The purpose of mowing is not merely to keep down unsightly growth, but rather to build up a vigorous, fine, strong grass. The secret in mowing is to keep the blades long enough to prevent the roots being starved, but short enough to be attractive to those passing-by your home. The height should not vary a great deal.

Dianne Gunn
Mrs. Dianne Gunn has been living in the Stouffville area for the past two years, formerly of Winnipeg, Manitoba.

Ernest Skuja
Mr. Ernest Skuja has been a farmer in the Uxbridge area for the past ten years.

Terry Richardson
Mr. Terry Richardson is a young family man who has lived in the Stouffville area for many years. All look forward to serving your Real Estate Needs.

IMPROVEMENTS FOR MARKHAM SHOPPING CENTRE BEGIN!

The Markham Shopping Centre will have a new and more inviting appearance early this summer, according to Robert L. Greig, the co-ordinating architect for the Centre's face-lifting program.

The Centre, featuring a total new image, will involve new canopies, a unified colour and new signing program.

Work on extensive renovations has already begun on the second floor office areas. A completely revised heating and air conditioning system is currently being installed upstairs.

"There has been a great deal of time spent with our consultants trying various approaches as to how we might give the Centre a more attractive appearance", according to the new owners.

We have received a great deal of support and encouragement with our program not only from those in the Centre, but from local area shoppers and residents.
