

Stouffville Chiropractic Office Expands

Eleven years since local chiropractor Dr. Jerome DeLaurier opened his office at 201 Main Street West.

From the moment you walk in, there's a comfortable homey feeling in the reception area, and a pleasant "Hello" from Secretary Clara White.

Since that time, his practise has grown so steadily, that now he has had to enlarge his office facilities in order to better serve the needs of our growing community. All during the last 18 months, various tradesmen were a common sight at his house, completely renovating the entire building. So many people have expressed such an interest in the renovations, that Dr. DeLaurier has announced he will have an Open House this Sunday, September 30th, from 2 to 5 p.m. A cordial invitation is extended to everyone to attend and inspect the changes.

Dr. DeLaurier's house is literally a new building within an old shell. It was first gutted to the solid brick outside walls before new plumbing, wiring, ductwork, and lath and plaster were put in place. Local carpenter Brad Elson was in charge of the entire operation, and Dr. DeLaurier credits him for the fine job that is now evident. The only "treasure" found during the renovation was the front page of the old Toronto newspaper "The Globe", dated July 3, 1891, and addressed to Joel Baker, the original owner of the house.

Then came the decorating and furnishing, and this in itself is a sight to be seen. A virtual kaleidoscope of vivid, yet restful colours abound throughout his office and apartment, which combine with a great variety of wall coverings, barnwood, stone, carpeting, pegged flooring, ceiling beams, antique fixtures and furniture, and the most modern in chiropractic treatment equipment and x-ray facilities to give a very happy blend of both the old and the new. Those who have already seen through his place have said that Dr. DeLaurier should have been an interior decorator too, for it was he who created the entire interior design of both his office and residence.

In the years prior to renovating the inside, we have seen Dr. DeLaurier transform the exterior of the building to its original appearance by sandblasting the quaint brick structure and adding window shutters which had been removed in years past. Dr. DeLaurier has landscaped the lot to complement the setting, and maintains the flower beds himself as one of his favourite hobbies.

Though all of this activity plus his busy practise has necessitated Dr. DeLaurier to curtail his out-of-office activities in recent years, he had been very active locally in the Committee of Stewards at the Stouffville United Church, in various positions on the Stouffville Lions Club, and was a founding member and President of The Stouffville Players. Also during this time, he has given many hours to his profession as Vice-President of his Alumni Association, Vice-President of the Ontario Chiropractic Association, and served for several years on the Board of Directors of both the Canadian Chiropractic Association and the Canadian Memorial Chiropractic College - his alma mater. Throughout all of this, Dr. DeLaurier has kept abreast of the latest developments in chiropractic by regularly attending seminars both in Canada and the United States.

In January of this year, Dr. DeLaurier hired Mrs. Lorraine Stouffville and Mrs. Clara White to assist him with his office work. In the near future, he hopes to have another chiropractor join him in his enlarged office and to hire another secretary so that the resulting clinic will better serve the growing needs of the Stouffville area for modern chiropractic care. Remember, the public is invited to drop by this Sunday afternoon between 2 and 5 p.m. to meet his staff and to look around his beautiful office and residence.

It's such a pleasant blend of friendly, cheerful atmosphere that even children and nervous older patients are soon right at home.

They're glad he's here!

"After my snowmobile accident I could hardly walk," says Marla Hudson. "I don't know what I would have done without help right here in town. Now I'm so thankful I'm all better."

Sharron Brazier has been taking chiropractic treatments since her early teens in Markham. "When we moved here I was so relieved to find a chiropractor in Stouffville, but it was really wonderful that he turned out to be so good for my headaches."

A few years ago, Bill Morris, another long time area resident strained his neck lifting his invalid mother. Was I glad to get it fixed up so quick! It was sure painful! Is his straightforward comment.

Dr. DeLaurier makes a routine check of his X-Ray machine, just part of the ultra-modern equipment throughout the clinic.
