'Voice of Bethel' Energy crisis

BY HOWARD MINAKER
General concern has gripped the hearts of most citizens about the apparent energy crisis which is facing our country.

Tommy Douglas made good sense when he suggested over preparedness was preferable to lack of preparation.

The story is told of a father who purchased a world globe for his son. Together they studied various aspects of world geography and history. The globe was left in the child's bedroom. The father crept into the child's room one night to take it out for repair, thinking the child to be asleep. In the darkness, he heard his son call, "Dad, where are you taking my world?"

This is a question that is on many hearts. "Where is our world being taken?" We hear that it is getting better. It certainly has improved technically, financially, scientifically, and educationally. At least, we seem to feel every change is a change for the better.

homes, increasing crime and drug addiction.

Man, for centuries, has sought the elusive "Dove of Peace". However, the best he has been able to accomplish is an armed truce during the interval between wars.

Can we answer the child's question? Where are we taking our world - our country - our province

or our town? Are we intent on turning our steps toward God, His Kingdom, and His righteousness, or will we persist in going the opposite direction?

There is one Prince of Peace, one Way to life and one Door to salvation. Jesus said, "I am the door by which any man enter in he shall be saved."
