## Midgets win again

**STOUFFVILLE** — Stouffville Beckers' Midgets continued their domination of the Lakeshore Midget Loop dumping Newcastle Thursday 6-3.

In the win, the high production lines from the Stouffville club kept relatively quiet and scoring went to the players who work in an efficient penalty killing or checking capacity.

Howie Jones, the best penalty killer for Stouffville took his regular shift, and got Stouffville off to a quick opener against Newcastle. Newcastle got that one back to tie the game at 1-1. Dave Mumford had Stouffville back into a one goal lead

at the end of the first period, and in the second period, Craig Waite and Doug Taylor scored one each before the break.

The teams traded two goals each in the third period, with Ron McDowell's winning goal opening the scoring in the third before Andy Leitch put the game out of reach.

Bartley broke his arm and will be out until January.

The game itself was a thriller that saw the lead change hands several times. Stouffville opened the scoring with Tony Legeer's first of three goals. Brian Pill and

Doug Harris came back with goals to give Uxbridge a one goal lead until Stouffville came on to score twice and go ahead for the second time. Greg Redshaw tied the game again for Uxbridge and goals by Andy Redshaw and Norm MacKenzie put the score out of reach.

At West Ronge, Stouffville continued winning with a 3-0 shellacking of the Ronge

**The new 1974 Alouette Super Brute.**

**Never before has so much worked so well.**

In designing the Super Brute, our idea was simply to make a machine that would perform better and that would go on performing better longer.

So we put in power. A front-mounted Sachs engine. A new transmission, with heavy-duty chain and a double-sprocket free-wheeling track drive, for minimum power loss.

We built in lightness, with an all-aluminum chassis with race-proven front-end structure.

Balance, with new wide-stance Ski-Sorber suspension.

Comfort, with a slide suspension adjustable for your weight and snow conditions, and a posture contoured foam seat.

We devised a track tunnel that's self-clearing, not clogging. We added a completely new concept in the control module. It includes a headlight that swivels to show you where you're going, on a curve. And is integral with a high-rise, wrap-around windshield that doesn't leave your head or hands out in the cold.

**And looked so good.**

Ask engineers for performance, reliability, accessibility, long life, etcetera, and you don't necessarily expect the greatest looking machine you ever saw. But that's just what we got in the Super Brute.

Get around to your Alouette dealer soon, and see if you don't agree. But be sure to take a good look inside, as well as outside. Then you'll see why we're able to say "Alouette delivers."
