**Don't be chicken****Do something about the cost of prescriptions**

You can three things, in fact.  
1. When your doctor gives you a prescription, ask, "Is this the least expensive drug of its kind?" It's easy for him to check.

2. Take your prescription to a pharmacy which displays the PARCOST symbol. It guarantees just what it says: Prescriptions at Reasonable COST.

3. When your pharmacist fills the order, ask again, "Is this the least expensive one?" He has the PARCOST Index which lists drugs by price.

Saving money beats checking over high costs.
