

Happy that 'holiday' over

WHITCHURCH — On Monday, Nancy Gamble returns to school and she's happy. Like most students, the 'enforced' holiday plus the winter 'break' has been a bit hard to take. She's sixteen and in Grade 11 at G. W. Williams Secondary, Aurora.

She's The Tribune's 'Teen Pick of the Week'. Nancy resides in a lovely home on the Aurora Sideroad, one of six in the family of Mr. and Mrs. Ken Gamble, R. R. 3 Newmarket.

Up until last fall, she was a student at S.D.S.S. Her main interests include horseback riding, snowmobiling, camping, badminton and leathercraft. She also enjoys swimming, and the convenience of an outdoor backyard pool.

Nancy plans to complete Grade 12 and enter social work like her sister Sherry, now in her third year at Ryerson.

Sixteen year old Nancy Gamble, Aurora Sideroad, R. R. 3, Newmarket, plans to take up social work, following completion of Grade 12 at G. W. Williams Secondary School, Aurora. Jim Thomas.

'Bum rap' for stalker

WOODBRIDGE — Michael Martin was apprehended streaking in Woodbridge, Friday night, and was promptly 'streaked off' to jail by York Regional Police.

Martin, 22, was observed by an officer as he took off his clothes and ran down Woodbridge Ave. yelling "Streaker!"

He was taken to 29 Division where he was charged with committing an indecent act and then released to appear in court, Monday. There, the charge was withdrawn. Apparently Mr. Martin should have been charged with 'nudity'.

Martin, a said, he 'streaked' on a bet.

Town students win top prizes

STOUFFVILLE — Stouffville Dist. Secondary School students took all three prizes in the Intermediate Biology Science Fair held last week at the high school.

Top spot in the category went to Calvin Rae, followed by Carolyn Davidson (2nd) and Grant Davidson (3rd). The fair included students from four high schools and 18 elementary schools.

Judges were students from Ontario College of Education, and York County master teacher Les Pickard.

Mark Redquest of SDSS put on a fine display, good enough for 1st prize in the senior biology section.

Other prize winners included: Intermediate Physical - Peter Smerka (Aurora); Marnie Mann, (SDSS); Mary Morganson, (SDSS); Sr. Physical - Barry Lay (King City), Paul Tacon (Williams), Bruce Bacon and Kevin Jennings (SDSS) tied for third with Catherine James (King City).

In the Jr. physical section (grades 7 and 8), Barbara James (King City), Mark Castel (Nobleton), Brian Mercer (Summitview), Jr. physical - Barbara Williams and Beth Wilson (SDSS); Stephan Joyce and Ron Preston (Whitchurch-Highlands); Jennifer Wilson and Doug Wilson (Nobleton); Junior Biology - Lily Scad (Nobleton), David Locke (Nobleton), Pamela Gibson (Orchard Park); Junior Biology (group projects) - Krista Holdsworth and Valerie Brown (King City); Catherine Phillips and Shelly Anderson (King City); Siari Lehman and Teresa Rae (Summitview).

The beginners had their chance also. In the physical sciences category, individual awards went to Margaret Stiver (George St.), Dawn Baggs (Orchard Park), Bobby Holmes (Whitchurch-Highlands). The group winners were: Mike Mumford and Dan LeBlanc (Summitview); Allison Barrett and Dale Jackson (Orchard Park); and Mary Long and Patti Richards (Summitview).

Beginners Biology winners included: Anne Cole (Oak Ridges), Susan Cole (Oak Ridges), Chris Burke (Orchard Park). Group winners were Lisa Mancel and Cathy Chapman (Oak Ridges), Kathleen Ermdin and Janice Gray (Orchard Park), Nancy McGinn and Janice Wideman (Orchard Park).

The winners advance to the region-wide York County Fair.

Youth Club is organized

BALLANTRAE — Twenty-eight young people have taken out membership in the newly organized Youth Club, to meet regularly at the Ballantrae Centennial Centre. The age limit is Grade 7 to 17 years.

The interim president is Curtis Sooley; 1st vice, Stephen King; 2nd vice, Tony Arrigo; secretary, Jackie Wedley; and treasurer, Dagmar Becker.

A second meeting is Friday, from 7 to 9 p.m., with a grand opening planned for April 5. Enrollment has been limited to 125.

NOTICE OF APPLICATION BY THE CORPORATION OF THE TOWN OF MARKHAM TO DISPENSE WITH A VOTE OF THE ELECTORS

TAKE NOTICE THAT:

1. The Council of the Corporation of the Town of Markham Intends to apply to The Ontario Municipal Board for approval of an additional expenditure of \$700,000.00 for the construction of a works and maintenance garage on the north side of Miller Avenue, being part of Lot 7, Concession four in the Town of Markham, more particularly shown as parts 1 and 2 on Plan R-4411, which amount shall be raised by the sale of debentures payable out of the general rate over a period not exceeding twenty (20) years.

2. Application will be made to The Ontario Municipal Board for an order to dispense with the assent of the electors to the undertaking of the said works. Any ratepayer may, within twenty-one days after the first publication of this notice, send by post prepaid to the clerk of the Town of Markham at the address given below, a notice in writing stating his objection to such approval and the grounds of such objection.

3. The Ontario Municipal Board may order pursuant to the statute that the assent of the electors shall not be required and may approve of the said works, but before doing so it may appoint a time and place for a public hearing when any objections will be considered.

DATED at the Town of Markham this 21st day of March, 1974.

N. J. Pickard,
Clerk-Administrator,
Town of Markham
8911 Don Mills Road
Markham, Ontario

Wells says moral teaching needed

Education Minister Thomas Wells has asked for parent and teacher participation in reviewing, assessing and assisting in the development of moral education programs for the public school system.

Speaking to the Ontario Education Association last week, Mr. Wells said that as a parent of children in the school system and a ratepayer who supports the public school system, he knew that the schools are not morally neutral.

"All teachers must face up to the fact that they, like parents, are moral examples for our children. Almost everything that happens in a school, in one way or another, has a moral colouring."

Mr. Wells said that the schools must put more emphasis on including moral education in their programs, not as a special course, but as part of existing courses.

"We must expand the promising start that has already been made, in some schools until all our schools are helping children examine issues with moral consequences and think about questions that can be solved only by value judgements."

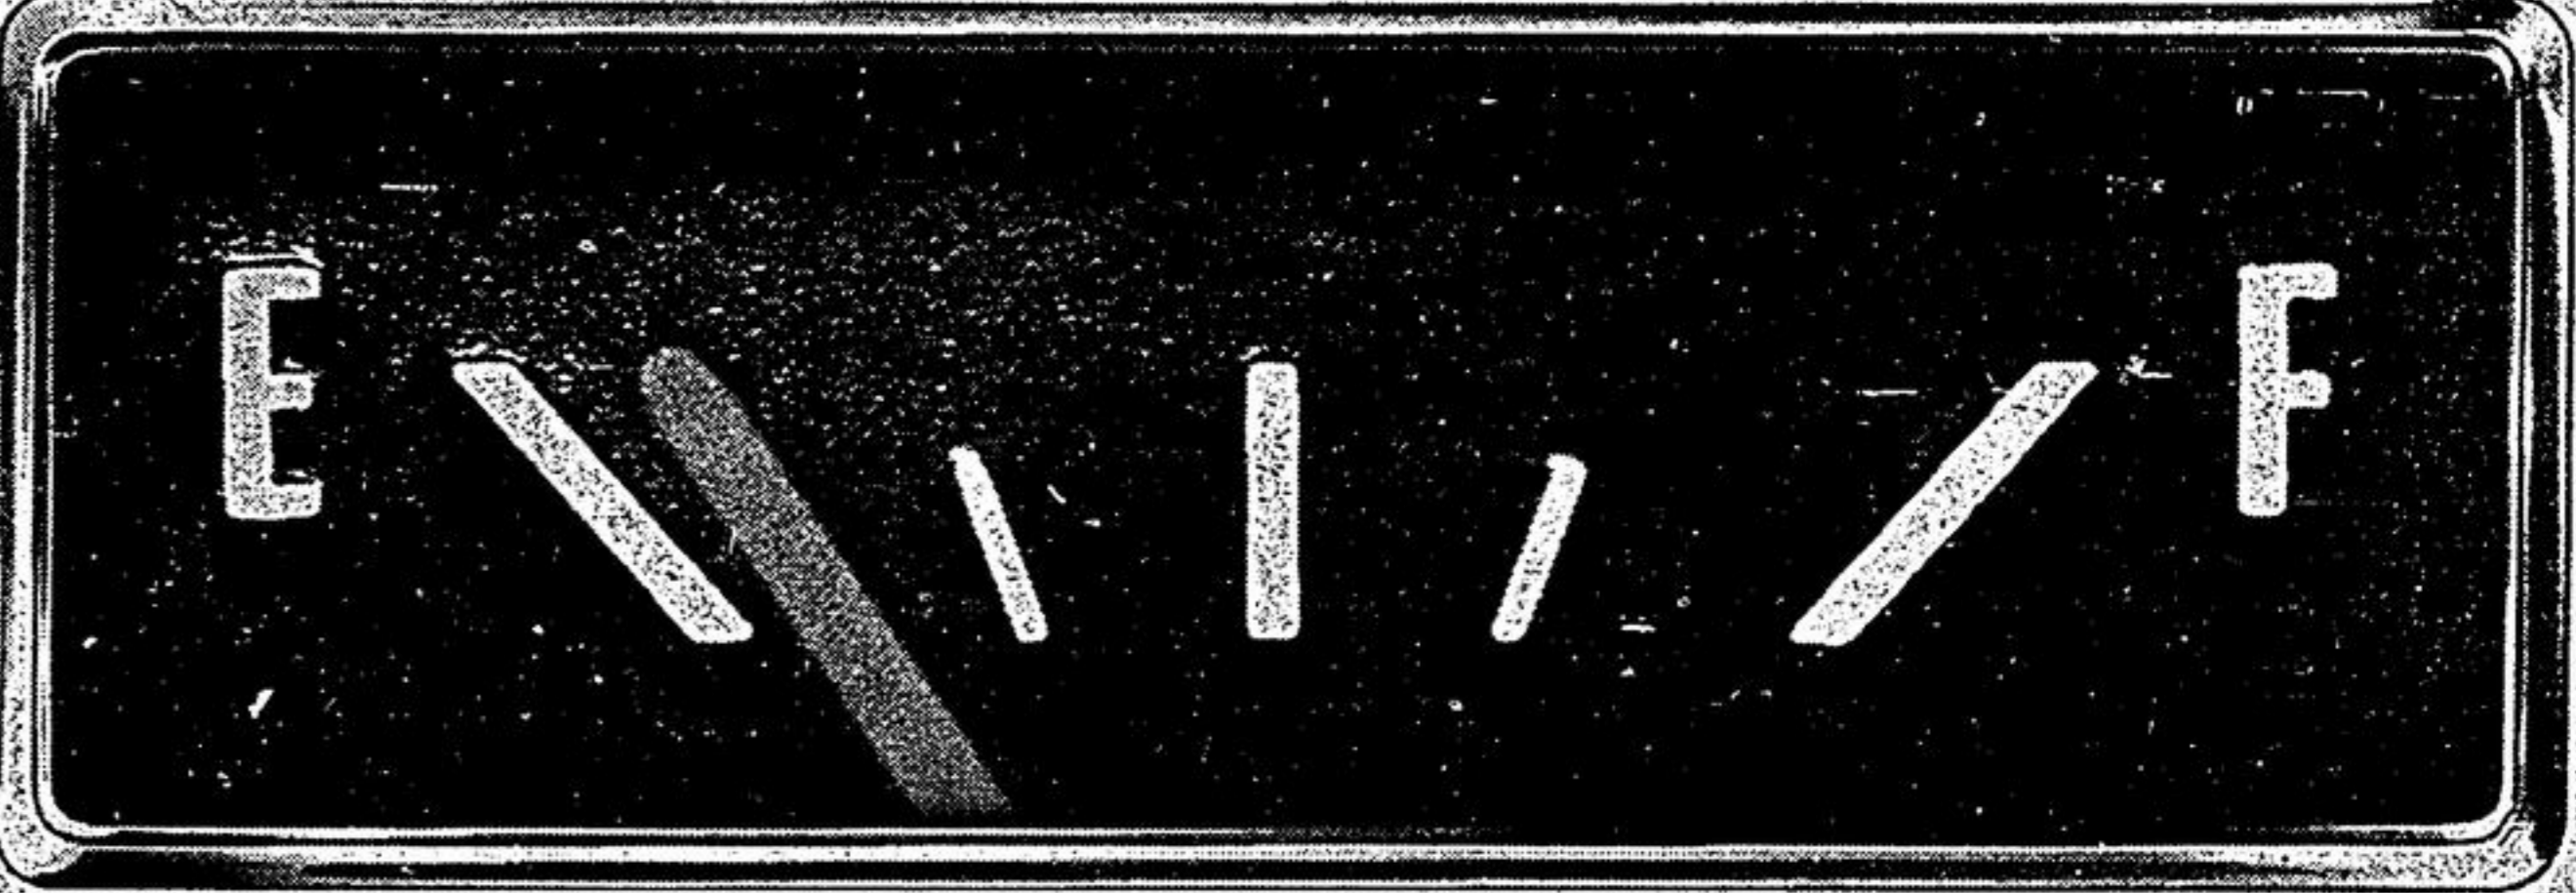

Mr. Wells said that he received almost 7,000 letters last year protesting the proposal to drop a legal requirement that teachers set a moral example for their students. He said he has never had a greater response on any issue during his term as Education Minister.

The minister said that the development of moral education programs will require a sensitive mechanism that will allow each school board to consider programs suited to their area. However, he said that he does not believe that the schools have the basic responsibility for moral education. That, he said, is the first and foremost duty of parents, assisted still in many cases by the church.

YOU'VE PROBABLY GOT JUST ENOUGH LEFT TO GET TO A TOYOTA DEALER.

It's no news to anyone that right now a small car is a better idea than ever.

And right now a Toyota is a better small car buy than ever.

A recent survey of small car buyers in Canada showed that the two things uppermost in their minds when they went shopping for a small car were: (A) Price, and (B) Gas mileage.

Which should go a long way towards explaining why more Canadians buy Toyotas these days than any other small car. In fact, the Toyota Corolla is one of the 10 best selling small cars in Canada. And one of our Corollas, the 1200, is not only the lowest priced of any model of the top ten best sellers, it's also the one that goes the farthest on a gallon of gas.

The burning question: how many miles to a gallon?

In the U.S., a government body called the Environmental Protection Agency tests cars to determine their gas mileage figures. The EPA people are thorough, finicky, and tough. They have to be. And the chart below shows you what happened when they posted the mileage figures for some of the top selling small cars. (Of course, your own mileage may vary, depending upon road conditions and the way you drive.)

Small car mileage chart

Best mileage attained by each manufacturer in miles per gallon	Make	Model	MPG				
30	10	15	20	25	30	35	40
32.5	Toyota Corolla 1200	32.5	29.9	29.5	27.4	25.2	
29.9	Datsun B210	29.9	29.5	27.4	25.2		
29.5	Vega Hatchback	29.5	27.4	25.2			
27.4	Pinto	27.4	25.2				
25.2	Volkswagen (Beetle)	25.2					

Some big car mileage figures. Read 'em and weep.

You may not be completely aware of the kind of mileage you're getting from the car you presently own. Just for the record, we've listed below some of the EPA registered figures (converted to Imperial gallons) for some popular big cars.

Make/Model	Mileage (mpg)
Ford Torino 302 V8	14.2
Chev Impala 350 V8	12.1
Pontiac GTO 350 V8	10.7
Ford Galaxie 351 V8	12.8
Plymouth 360 V8	12.5
Mercury Mont 351 V8	10.9

But remember, rushing out to buy a small car just because it's good on gas may be a big mistake. Our advice is that if you're going to be

stamped into a small car, the chances are you're going to be unhappy with it right from the start. A small car should represent a rational, intelligent alternative for you, not a desperation move.

Most small cars are inexpensive to run. But not all small cars are inexpensive.

To our way of thinking, spending a lot of money for an economy car defeats the whole idea. Economy should start right in the showroom. (And if you're used to big cars with big price tags, brace yourself. A Toyota Corolla could represent half, or even one third what you're used to spending for a big car.) But most important of all, of the 10 top selling small cars on the market, Toyota has the lowest priced model. It's the Toyota Corolla 1200KB. And it's lower priced by far. Here are a few examples of leading manufacturers' lowest priced models:

Model	Displacement (cc/Net HP)	Lowest Priced Model	Difference
TOYOTA	1200/65	\$2,499	
Vega	2300/75	\$2,789	\$290
Pinto	2000*	\$2,825	\$326
Datsun	1300*	\$2,965	\$466
VW	1600/46	\$2,995	\$496

*Net HP figure released. Manufacturers suggested MSRP. Does not include delivery and destination charges, and licence and provincial tax because these factors vary from region to region (Toyota's MSRP based on Vancouver, Toronto, Montreal and St. Louis).

More features. More models.

Some small cars offer you only the bare necessities. But not us. Even on our lowest priced models you'll find extras that are extra elsewhere. (We give you front disc brakes and reclining bucket seats for instance. Many other small cars charge you for them.)

You don't have to give up comfort, performance and power either. We have 22 models to choose from (including 2 pick-up trucks and two 4 wheel drive Land Cruisers) and one of them is exactly what you think a small car should be.

Our Mark II, for example, even comes with power steering and an AM/FM radio as standard equipment.

Our Corona has been totally re-engineered with safety in mind; the two hard top models feature an overhead panel that alerts you to a potential hazard. (It's called ESP: Electro Sensor Panel, and it's the most advanced innovation you'll see on any car, big or small.)

If it's power and performance you're looking for, take our new Celica GT for a test drive. We think you'll be as surprised as some automotive writers were when they found how well it handled.

We can even offer you a low-priced Toyota Corolla SR5 that comes with a 5-speed transmission, tachometer and radial tires as standard equipment.

You're not losing a big car, you're gaining half a garage.

Small cars have always made sense, today they make a lot more sense.

We think small cars are the cars of the future. So we've got a pretty big stake in which one you choose right now. We figure that if your first small car is a Toyota, it won't be your last.

And remember, of the best selling small cars, Toyota is number one.

So when it comes to low price and great gas mileage, not to mention the most standard equipment and widest choice of models, see your Toyota dealer.

Most importantly, see him first.

That way, think of all the gas you'll save by not having to drive around to all those other dealerships.

TOYOTA

See how much car your money can buy.

Check the Yellow Pages for the Toyota dealer nearest you.

APRIL AID

The income tax help system and how to make it work for you.

As you know by now, we changed a lot of things last year. We gave you a new return; a new Guide, several new deductions and a few new rules. And quite honestly, we were more than a little concerned about your reaction to it all. (And very, very interested in your opinions.)

Well, now that we've had time to really look back at it and assess it honestly, it appears that most taxpayers did not seem to find it too difficult. The error rate did not accelerate greatly or change drastically from former years. Generally, most taxpayers seemed to handle their new returns fairly well.

However, Income Tax will never be the easiest or most enjoyable thing in anyone's life. And it will always present problems in some areas, for some people. That's expected and understandable.

So, what we want to do now is really work on those problem areas. And the best way to do that is to work with you, individually, on whatever part of Income Tax that causes you difficulty.

And that's what April Aid is all about. It's a help system and its primary objective is to ensure that whenever or whatever you need help with, you can get it. And know how to get it.

Second, if you're still confused or something just doesn't seem to work, phone. The number of your own District Taxation Office is below and at the end of that number there are people whose only job is to help taxpayers with problems, by telephone. And on Mondays and Tuesdays phone lines are open 'til 6 p.m. So don't hesitate.

If you live outside the office area, call the Operator and ask for Zenith 0-4000. She will automatically connect you to your own District Taxation Office. Remember, all calls are free, all questions are answered, and if you have queries, we want you to call.

Third, some people prefer to talk things over in person. If you're one of them and have problems, drop by for free help. Anytime. The address of your District Taxation Office is below.

Fourth, write. To the address below. Explain your problem as clearly as possible and include all information. (And your return address, please.) In return, we'll answer all letters as quickly and clearly as possible. Remember - if you need help, it's there. (And free.) And all you have to do is ask.

April Aid. The Income Tax help system. Let's make it work for you.

Together, we can get it done.

Revenue Canada / Revenu Canada
Taxation / Impôt
Robert Starbury, Manager / Robert Starbury, directeur

And this is how it works:
First, Your Guide is always the best answer when you have a problem. Read it. Follow it. If not only gives explanations, but in many cases, examples of just how to figure something out.
