Schell Lumber fire

Firemen commended for quick response

STOUFFVILLE — Council last week received a letter addressed to Mayor Gordon Ratcliff commending the Town's Volunteer Fire Department. The letter has been reprinted below in its entirety.

Dear Sir:

I had an opportunity on the evening of July 4, 1974 to observe the Fire Department of our town fighting what could have been a disastrous blaze at Schell Lumber. Had it not been for a combination of speedy response, correct size-up of the situation and an aggressive attack on the fire, it is quite possible you may have seen the loss of the entire business area around the lumber company.

I have been a professional firefighter for the past 12 years and I have been involved in several major fires. It is obvious to me that Whitchurch-Stouffville not only has a well trained fire department but also has one which is staffed by a chief officer who has the ability to correctly make attack decisions and an aggressive crew courageous enough to carry out his orders. The attack and extinguishment of the Schell Lumber fire had to be one of the finest pieces of firefighting I have witnessed in some time.

More often than not the residents and leaders of communities have a tendency to criticize the operation of their fire departments. This is due mainly to the fact that the average citizen does not fully realize the complex problems faced by firefighters when a fire call is received. These problems begin from the instant the fire is discovered until the fire is subdued and the men return to quarters.

I feel the citizens of Whitchurch-Stouffville and their governing body should be justly proud of their fire department. I would venture to say we have one of the finest if not the finest volunteer fire departments in Ontario.

Please convey to Chief Walter Smith and his men, on my behalf "A great save fellows, well done."

Robert W. Keillor,
21 Frederick Street.

Dump rules criticized

UXBRIDGE — "Ridiculous" is how Uxbridge Councillor Maustyn McKnight described new charges by the Region of Durham at the Scott Township disposal site.

He was referring to the fact that a person bringing garbage to the dump would have to pay \$7 if it was brought in anything larger than a half-ton pickup.

The new charges were advertised last week in the Uxbridge newspaper.

Murray Clarke, who is in charge of operation of the dump, appeared at the council meeting to ask that the new regulations be changed.

He said that extended hours demanded by the region and increased paper work would require at least one full-time person and possibly two. Mr. Clarke presently opens the dump three days a week and is employed on a part-time basis.

"They want us to run our dump like they do in the city?" he complained. He added that rates are discriminatory against some people. People with single axle dump or stake trucks have to pay \$7 to dump their garbage.

Councillor McKnight said that for many farmers, the only way they have of bringing garbage to the dump is with a stake truck.

"People won't pay it," he said. "They would sooner dump the garbage on sideroads, and road ends."

Mayor Carl Putebaugh said that the rules were made to prevent commercial operators from dumping garbage freely in the rural areas.

Mr. McKnight said that he felt the regulations should not be applied to residents because they already pay taxes to support the disposal site.

Both the mayor and Regional Councillor Bill Ballinger promised they would bring the matter up at the regional level.

TOWN OF WHITCHURCH-STOUFFVILLE
RE: DAY CARE CENTRE

Residents of the Town who are interested in the services of a Day Care Centre are requested to advise by letter addressed to the undersigned. Before requesting senior levels of Government to provide funds to establish a Day Care Centre the Council would like to determine the interest and need for such a project.
