## Wonder's new LP

Stevie Wonder's new LP on Motown's Tamla label, "Fulfillingness' First Finale," has been described as the closing chapter of the first phase of Stevie's musical career.

And what a career it has been! Stevie is living proof of the old proverb — when one door closes another opens. He has been unable to see from birth but it seems inaccurate to call him blind — he has such musical insights and "Innervisions" that he must have perceptions denied to most of us.

If "Fulfillingness' First Finale" is the closing chapter in Book One of Wonder's development, it is an exciting way to call a time out. There isn't a mediocre cut on the album. Among the best of the Wonder tunes is "Boogie on Reggae Woman," whose infectious rhythms make it a sure bet to hit the top of the singles chart.

"Heaven Is 10 Zillion Light Years Away" is another great cut and the words must express Wonder's philosophy but one line has to be wrong — "Why must my color black make me a lesser man?" For Wonder has transcended color, blindness and trauma — and everyone hopes that he picks up on Phase Two of his career soon.

### BOOK REVIEW

## "THE KIDNAPPING OF THE PRESIDENT"

BY CHARLES TEMPLETON

The President of the United States kidnapped and held hostage at the brink of death — the frightening culmination of the political madness that has wracked America in recent years. This suspense-ridden novel proves it to be possible, as Charles Templeton brings the reader face to face with that ordeal. His vivid, action-packed **STORY IS SO TRUE TO LIFE, SO AUTHENTIC IN ITS SMALLEST DETAIL**, that readers will have to remind themselves it's only fiction.

Step by step Templeton constructs each meticulous detail of the terrorist planning that leaves Adam Northfield, Scott, U.S. President, imprisoned at the heart of Times Square in a booby-trapped armoured truck set to disintegrate at midnight, with only one man able to stop it — if his demands are met.

Behind the scenes the greatest intelligence and security apparatus in the world finds itself blocked at every step — a presidential protective system that's meant to be impregnable isn't.

The Kidnapping of the President is heart-stopping suspense, political intrigue and more: for Charles Templeton, with a confidence and knowledge born of years in journalism and politics, probes the public and personal lives of high government officials, vividly evoking the tense atmosphere of top-level meetings.
