Church supper Friday evening

This dummy not so dumb

"Uncle" Norm Wyman and his puppet "Jackie" had scores of youngsters enthralled last week as part of the Kids' Crusade at the Stouffville Missionary Church. With better than 100 children attending each day, the program certainly succeeded if judged by the enthusiasms of the youngsters.

Talk about Jesus to the lost world

By HOWARD MINAKER
Just recently in a renewed awareness of the loneliness of the average person I determined to increase my personal witness. I decided I would talk about Jesus Christ rather than current events or the weather when in conversation with strangers.

I tried to imagine what the reaction would be should a neighbor walk up to a "boring" house. Would he tap lightly on the door and talk to the householder about the sunshine, the flowers or the job situation? Would he climax his remarks with: "Now I don't want to alarm you but I think your house is on fire?"

We smile at such a ridiculous approach in a time of peril. However Jesus said "Be not afraid of them that kill the body and after that have no more that they can do. But I will forewarn you whom you shall fear: Fear him which after he hath killed, hath power to cast into hell; yea I say unto you FEAR HIM." Luke 12:4 and 5.

I believe without qualification the clear teaching in the Bible of the eternal bliss of heaven and the eternal torment in the lake of fire. For this reason I cannot rest until I discharge my responsibility.

Recently I talked to a young man of eighteen, raised here. "Son do you know Jesus Christ as your own Saviour, I inquired?" "No I don't believe I do," he replied in sincere honesty. I was shocked to learn that in his life never before had anyone approached him about becoming a Christian.

The group of young people present, "the familiar Gospel message in a contemporary setting."

Powerfully quiet. Quietly powerful.

Bolens QT-16 Tractor
The irritating noise and vibration are gone. The rugged workpower remains. Powerful 16 horse, twin cylinder engine. Precise, uncomplicated controls. A power-locking collar clicks attachments in line with just fingertip pressure. One treadle-pedal controls speed and direction. Attachment clutch and hydraulic lift are flip switches; not arm-wrenching levers. Someday, all tractors will be this sophisticated. Why wait? Bolens. A good yard ahead.
