54. Legal Notices

TO WHOM IT MAY CONCERN RE: Governmental responsibility to protect the responsible majority from the cost of wastefulness, vanity and arrogance. The undersigned has registered partnerships to assist any who feel apprehensive about a system of priorities which would view a second airport as being more important, for example, than the immediate establishment of recycling plants which would eliminate or reduce the necessity for Ontario Hydro to borrow twelve and a half billion dollars for fuel and other expenditures within the next few years. Civilized productive citizens may likewise feel that, for example, a singer making four hundred thousand dollars in a week should pay dearly for the fuel on his private jet plane so that a farmer who has worked hard all his life should not be forced to pay about double for his own modest fuel needs, as supplies dwindle. Likewise others may feel that brand new parts, complete working pickup trucks, and new tires should not be cut, broken and slashed so as to waste all the energy that has gone into producing them, thus raising the cost of livelihood for the humblest and most deserving majority, merely to satisfy commercial greed. Any who feel, as do the undersigned, that a properly managed Ministry of Energy should have dealt with such matters, are invited to write for free help and advice in protecting their birthright. SISSONS AND ASSOCIATES Box 25, P.O. Box 100, C-2 HARRIS AND HARRIS Main Street Uxbridge.
